

## SPAIN IN GRIP OF REVOLUTION

**Government Threatened by Military Coup**

**Barcelona Captain-General Heads Movement**

**Moroccan Situation Leads to Open Rebellion**

(Continued from First Page)

cation of his proclamation today followed.

**WISHED TO BE SENATOR**

Primo-Rivera is understood to have been displeased because of the refusal of the government to name him as a senator. He came against the military junta and his opponents retaliated with the criticism that his rapid rise could be attributed to his relationship to high officials.

Since the early morning it had been rumored that the Cabinet was in an extremely difficult position. According to information from an admiral, a document had been distributed among the garrisons severely condemning the government and demanding its resignation. The news of this proceeding caused a Cabinet meeting to be hastily summoned and increased the uneasiness.

The President of the Council declared the meeting had been convened to deal with a question of a purely international nature, but it was generally known that the document circulated was the real reason for the convocation.

The document is said to have declared that the situation in Spain was most complicated and that the government was at a public disadvantage as the result of its low morale and corruption.

**MEET BEFORE DAWN**

The meeting of the Cabinet ended at 2 o'clock this morning, when the ministers asserted the situation was normal and returned to their homes; but during the night the Prime Minister, the Duke of Alba, Minister of Marine, where the Cabinet was summoned to meet again before dawn, and the captain-general of Madrid, Munoz Cobo, was summoned to attend the discussion of the ministerial.

At 4 a.m. the captain-general made the following statement to the press:

"I can say only one thing, that the situation is normal, and in order to be informed of the attitude of the Madrid Garrison. I answered that the garrison was in its barracks, ready to guarantee the continuity of the order, and that there was consequently nothing to fear in connection with the troops stationed in Madrid."

The newspapers say the disturbance in Barcelona had been suppressed, but that the government learned of it and adopted precautionary measures, which led the organizers of the movement to cut loose before the anticipated time.

**ALBA ON WAY HOME**

It was said there were about four thousand Foreign Minister, Minister Santista Alba; against whom the military element has considerable feeling, was on his way to Madrid. It is reported that a squadron had been sent to Barcelona.

The government had put up a ban upon all kinds of communications, but later authorized the dispatch of messages giving official information regarding the situation.

The text of the Barcelonans manifesto was placed before the ministerial council. The manifesto declared the situation in Spain was extremely critical owing to "the immorality of the government, its disastrous Moroccan policy and its abandonment of public authority."

**SEEKS BUILDINGS**

Information has just reached the government that the Barcelona Junta had seized all the public utility service buildings. Capt. Gen. Munoz Cobo, was called before the council and asked if he could be induced to return to the capital and sustain the government. The Captain-General assured the government that the troops were quiet in their barracks and disposed to guarantee the continuation of the order.

According to information reaching Madrid, the government has been aware that a coup d'etat had been planned to take place at Barcelona Friday, but the Junta precipitated the event when it learned that the government was informed as to the project and was taking precautionary measures.

The Liberal newspapers express

approval of the attitude of the government in remaining at its post. Only a regime of democracy, they declare, can guarantee the life and prosperity of the country.

The civil population throughout the country is remaining quiet, the latest advised state.

It is announced that the army has occupied Saragossa and other places.

## HIDE FACTS IN NAVAL WRECK

(Continued from First Page)

punched in her hull. So far as the boat was concerned, no damage was made by naval officials at the time of the wreck or since that these three boats were members of the unlucky squadron.

**ARRIVALS NOT RECORDED**

The official lists of arrivals, according to a check-up in newspaper offices, did not record the arrival of the three boats in dry dock due only to a chance remark dropped by one of the members of their crews. Opinion expressed here by naval and government officers on the crews of the wrecked ships and shipping men apparently is that the wreck of Saturday night was preventable. Some one evidently miscalculated.

## FIND 88,000 QUAKE BODIES

Reconstruction Work in Tokio and Yokohama is Expected to Cost Ten Billion Yen

BY RODERICK MATTHEWS  
BY CABLE—EXCLUSIVE DISPATCH

OSAKA, Sept. 13.—The bodies picked up in Yokohama up to the morning of the 7th inst., total 22,000 and in Tokio up to 10 a.m. of the 9th inst., 55,000. Friends have abandoned hope for the survival of Daniel Langford of Honolulu, professor of the English Keio University, known in scientific circles. The Smithsonian Institute is now issuing a book dealing with his collection, donated to the government.

Miss Mary Alexander, daughter of the late historian, Prof. Alexander of Honolulu, with a party was ascending Mt. Fuji at the time of the quake, the great mountain shock inducing the belief that there was an eruption.

Among a long list of others who participated were Mae Leona Christensen and Dorothy Brown Abbott and Baker, Master Newton Hall, Dick Sutherland, Howard Trueblade, Charles H. Morey, Campbell Sisters and Gene Cloude with his Sync-synphonist.

Two national dances by Japanese were performed at Philharmonic Auditorium with a program of vaudeville and motion-picture talent will net \$300 or more. The money will be turned over to the Red Cross.

The civil population throughout the country is remaining quiet, the latest advised state.

It is announced that the army has occupied Saragossa and other places.

**NEW COAST SHIP SALES IN VIEW**  
Board Officials on Way to Coast to Settle Problems Affecting West Line Will Put Seven Boats in Service

thence through the Panama Canal to home. This arrangement with the board this service is guaranteed for five years. This will be the first round the world service of this kind that has been inaugurated, for while the earlier Company is maintaining freight rates on this service today, there are no other ships now in a continuous service around the world under any flag.

**FULL SUPPORT**

"The Shipping Board is of the belief that this service will be of great value to American travelers and merchants, and it will have the full support of the board in its effort to build up an American merchant marine."

"These ships were built by the New York Shipbuilding Company and are of 10,520 gross tons register, \$1,000,000 net, five of them being now operated from New York to London. These will be supplanted by other fast freight ships."

"Whether the exact date of this to the Dollar shipping

date is not yet to be determined, but it is to be expected that the new fleet of seven of the 102 type

ships will be delivered to the Shipping Board vessels to London will of course be greatly augmented next year by the capacity of the New Republic, formerly the President Grant, now being reconditioned at Newport News. The other two ships of the new series are being constructed from the west coast of the United States to the east coast of South America. These also will be supplanted by other vessels."

## NEW YORK KEY TO NOMINATION

Empire State May Decide  
Republican Choice

Leaders Think They Hold  
Balance of Power

Expect Coolidge to Have  
Most Delegates

BY ARTHUR SEARS HENNING  
(EXCLUSIVE DISPATCH)

NEW YORK, Sept. 13.—That the ninety delegates representing New York in the Republican National Convention next year are not unlikely to determine the Republican nomination for President is the pleasing possibility which is interesting the political situation with a new interest for Republican politicians hereabouts.

I have talked to several Republican leaders who suggested this contingency and when I asked them if they had been doing some figuring on 1924 prospects productive of arithmetical proof of the soundness of their reasoning.

According to their calculations

President Coolidge is not likely

to succeed himself but will remain the leading candidate right up to the balloting in the national convention.

If reasonable, may be expected

to be the start obtaining the sup-

port of the delegates from New England who will number about 100 under the forthcoming new apportionment being worked out by the Republican National Com-

mmittee.

SOUTH FOR COOLIDGE

In addition to the President's supporters may be expected to have 200 delegates from the Solid South who generally are controlled in favor of a Republican administration than by the influence of Foreign Jobholders.

With the border States of Maryland, West Virginia and Missouri and Oklahoma taken into consider-

ation, Mr. Coolidge, according to these calculations, would account on not less than 300 dele-

gates from south of the Mason

Dixon line.

The New Yorkers have perceived

that steps are being taken to line

up the field for Coolidge. Atta-

Gen. Daugherty having become a

strong Coolidge partisan and Sena-

tor Willis having sacrificed his

own Presidential ambitions to in-

fluence the nomination for Coolidge.

Ohio will have about fifty

delegates under the new apportion-

ments. They also have per-

ceived the steps being taken to

garner delegates for Mr. Coolidge

from the South and the Northeast.

It is unlikely that the President will

be able to develop a strength of

some 400 or 450 delegates in the

early balloting.

COOLIDGE AGAINST FIELD

The New York leaders are pro-  
ceeding on the theory that it will be Coolidge against the field.  
The field of rival aspirants for the  
nomination. Just who will con-  
stitute the field is right now the  
chief nebulousity in the political  
firmament. Numerous potential  
and world-wide aspirants are  
being easily identified but up to  
date have evinced a fondness for  
the obscurity of the unbridgeable  
background. One hears of the im-  
pending candidacy of Senator  
Johnson of Tennessee, Senator  
Gordon Lovell of Illinois, Gov.  
Pinchot of Pennsylvania, but can-  
didacies continue to impend with  
none of the potential candidates  
betraying an overwhelming eag-  
erness for the fray.

Now, and there is a gen-

eral disposition among those who

eventually may constitute "the

field" to permit the President to

enjoy his "political honeymoon"

in peace. The honeymoon will

come to its end by Oct. 15 when

the first Monday in Decem-  
ber and then developments of an

interesting character in the way

of opposition to the President and

candidates for the nomination

found there may be expected

other than the great reluctance of

the rival candidates to declare

upon the great undertaking

and incidentally upon the

failure of potential opponents to

discover up to date any issue af-

fording a chance of popular sup-

port or an attitude critical of the

President.

ISSUE MAY DEVELOP

The general expectation of the  
leaders here, however, is that be-  
tween the actions of the President  
and the actions of Congress in-  
sures will develop in the next six  
months productive of one or more  
formidable candidacies in opposi-  
tion to the President.

If Mr. Coolidge should have from  
400 to 450 delegates, it would be  
possible for the New York dele-  
gation of ninety to put him across.  
If, however, the New Yorkers  
were opposed to Mr. Coolidge, they  
could exert a powerful influence to  
thwart his nomination and effect  
the choosing of a rival.

In a somewhat position the  
Republican politicians here are  
waiting and watching. They opine  
that Coolidge has made a good  
start but has yet to go up against  
the hurdles of Congress and that  
it is too early to say where New  
York will stand in the conven-

tion.

SACRAMENTO BANKER  
ON RECLAMATION BODY

BY A. P. DAY WIRE

SACRAMENTO, Sept. 12.—Joseph H. Stephens, Sacramento banker, today was appointed a member of the State Reclamation Board to fill the vacancy caused by the resignation recently of John R. Gadd, who has located in Los Angeles. Gadd resigned to give attention to private business. In announcing the appointment of Stephens, Gov. Richardson issued a statement which said the appointee is conversant with all phases of reclamation problems which confront the board and has made a special study of the financial details.

## FIRPO AND DEMPSEY READY FOR GONG

### CHAMPION IS A HEAVY FAVORITE TO WIN BOUT

*Thousands to Witness Title Battle at Polo Grounds; Dempsey Is Expected to Force Fight*

(BY A. P. NIGHT WIRE)  
NEW YORK, Sept. 13.—Two modern gladiators—Jack Dempsey and Luis Angel Firpo—will match their speed, courage and punch tomorrow night in the greatest test of their man's "the battle of the continents"—in which that greatest

district at prices ranging from \$50 to \$150 apiece.

Something of a flurry of ticket circles had been aroused by reports that counterfeitors managed to get some bogus pasteboards on the market despite a number of arrests and the confiscation of forged tickets.

The index of fans from all parts of the country, as well as from many parts of the globe, early this evening had crowded large hotels close to their capacity with predictions that tomorrow would witness an even greater in-pouring of ring followers.

Wagering on the outcome of the fight, which has been coming along light, seems impulsive with the arrival of thousands from out of town.

The confidence of the majority in Dempsey's ability to win was increased by the fact that he had lengthened on the champion with reports of several large wagers at three to one that he would be the victor.

The fighters, resting in seclusion overnight, were pronounced in perfect condition. Dempsey this afternoon broke camp at Saratoga Springs, and went at once to a hotel, Firpo, who remained behind to continue his training session given to him by the Spanish boxer.

The fighters will meet tomorrow for the first time when they weigh in at the offices of the State Athletic Commission at 2 p.m.

**NOW MUCH WORK**

Dempsey, after his spectacular knockout of Jess Willard for the heavyweight title in 1919 at Toledo, has had comparatively little strong opposition. He knocked out Billy Miske, Bill Brennan and Georges Carpenter, but last July,

he faced a formidable opponent in the form of Luis Angel Firpo.

Speculators seemed to be doing a brisk business during the recent efforts of Federal State officials to check their illegal gambling pools were said available in the theatrical

(Continued on Third Page)

### PUT YOUR HAND ON FIRPO'S!

This photograph of the might right of the Argentinean challenger for Dempsey's title is almost exactly life size. It lacks a fraction over half an inch of equaling the span of Firpo's huge paw. From his thumb tip to his little finger it is exactly ten and one-half inches. That hand doubled up and used as a club ought to accomplish something before the battle is over.

[P. & A. Photo]

### Jack Wants to Finish Firpo Very Quickly

(BY A. P. NIGHT WIRE)  
NEW YORK, Sept. 13.—

Jack Dempsey: "I have trained hard for this match because I expect it will be a tough one. I do not pay any attention to those who expect Firpo will be an easy opponent. I am not holding him lightly, but I do not fear him. Firpo is big and strong and dangerous. They are all dangerous until you have them on the floor. I am in good condition and believe I will have no trouble to offer. I expect the fight in one round. I'll do it, because I can't take any chances with him. Perhaps the fight will go further than most expect. However, Firpo probably can take a lot of punishment. I'll give him plenty of chances to demonstrate this because I intend to knock him down as soon as I can from the start and not take any early risks myself. He is too dangerous with his right hand."

**Champ Is Too Fast for Luis Says Kearns**

(BY A. P. NIGHT WIRE)

NEW YORK, Sept. 13.—Jack Kearns: "Dempsey is in great shape and ready for the toughest fight in his life. I am confident that he is going to win, and do it as quickly as possible. He is too speedy for Firpo, and is a better puncher. He'll step around so fast that Firpo won't know what's all about. If the champion can hit Firpo squarely the fight will not go to the limit, no matter how big and strong Firpo is. Jack Kearns believes that Firpo is big and strong and probably will be tough. Well, he is for a tough evening because Jack is hitting faster, more accurate and harder than he was when he fought Tommy Gibbons last July. That fight really put him on edge. He needed to get into good shape for this fight. He will have no chance with this big fellow, because we think he is dangerous. The crowd will be a smashing fight if Firpo is as good as they say he is."

### HUNTER DOWNS KINSEY

*Former Cornell Star Wins With Surprising Ease from Californian; Norton Trims Williams*

(BY A. P. NIGHT WIRE)

GERMANTOWN CRICKET CLUB (Philadelphia) Sept. 13.—Three Americans and one foreigner, a South African, came through the semifinals to the semifinals in the United States lawn tennis singles championship.

The Americans to survive were William T. Tilden of Philadelphia, three times national champion; William M. Johnston of San Francisco, holder of the world's title, won this year at Wimbledon, Eng.; Francis T. Hunter of New Rochelle, N. Y., finalist at Wimbledon, and E. L. C. Norton, champion of South Africa.

The trio of Americans reached the semifinal round according to expectations of lawn tennis men. Norton unexpectedly came through in a brilliant five-set victory over R. Morris Williams, of Philadelphia, captain of this year's American Davis Cup team.

Williams, who had been playing this year in the tournament that won him the national championship in the past, was beaten by the second-seeded and resourceful play of the South African, who, blocked at one type of game, constantly switched his play to garner points.

The score of Norton's victorious match was 1-6, 6-3, 6-4, 3-6, 6-4.

**EAST VICTORY**

Manuel Alonso, dashing Spanish player, who, with Norton alone survived in the heavy foreign entrants in the tournament, fell in straight sets before the masterful hammering play of Tilden, who allowed the foreigner but two games in the three sets. Scores: 6-0, 6-0.

Johnston, sparing himself for later matches, removed Frank T. Anderson of New York from the tournament with the utmost ease in straight sets, 8-6, 6-1, 7-5.

Johnston followed his sensational play in the tournament and third-round rounds in the latter of which he downed Vincent Richards, Davis Cup player, by accounting for Robert Kinsey of San Francisco, by a hard-fought battle in the face of his opponent's nasty chop stroke. The scores were 6-2, 6-4, 6-4.

Anderson, fearing Johnston at the top of his game, although the latter California was slow starting and had difficulty in pulling out the first set. Once keyed to his service, Johnston, in the determined form of a champion, combined with his own relentless forcing of play for every point, and the New York player was helpless before the terrorized former shot and his splendidly judged drives to the baseline.

Anderson made a game fight to save the day in the third set, but after losing the first two games at love, Johnston retained command of the match to the finish. After Johnston had won two love games, the New York player kept pace with him until Johnston led was five games to three. Here Anderson won a long game, and broke through Johnston's service for a fifth game, bringing the set to a finish. Johnston fought his way up at this stage, and cutting down Anderson's service, followed with a

### Firpo Firm in Belief That He Will Win

(BY A. P. NIGHT WIRE)

NEW YORK, Sept. 13.—Luis Angel Firpo: "I am in good shape. I feel like fighting as I never have before. In the arena there will be many voices raised against me; some will be shouting for me, in far-off countries where Latin tongues are spoken, they will be expecting me to win. I am confident. I am not afraid. If I am knocked down again and again, I will come up again and again. There will be no need to be afraid. On the contrary, I don't think Jack Dempsey can beat me, and I don't think that he can stand up under my punches. I came to the United States to win the world title. I conquered every man that stood on the road to the big test. On my body there are no scars of those battles; in my heart there is no fear of living thing. I think I will conquer Dempsey."

### Challenger No Ordinary Man Says Trainer

(BY A. P. NIGHT WIRE)

NEW YORK, Sept. 13.—Horatio Lavallee: "We have the fullest confidence in Firpo, our gladiator. He is no ordinary man. Perhaps he will be hit, but his tremendous, great fighting heart will be like a great power station, replenishing instantaneously any power that may be taken by the champion's blows. We feel that he will be outstanding. Come what may, Firpo, after the battle, will be called the Fighting Man of the Ages."

### ALHAMBRA GRID TEAM TO START

(SPECIAL CORRESPONDENCE)

ALHAMBRA, Sept. 13.—Coach Downing will have his 1928 A.M.S. football squad on the field Monday afternoon, when school opens, and will lose no time in getting his gridiron into shape for the coming season. Several last-minute players will be back, and it is expected that some good new material will show up for the initial practice.

### LUIS HAPPY ON EVE OF BATTLE

*Confidence Still Unshaken That He Will Win*

*Cheered by Thousands as He Walks Down Broadway*

*Spanish Supporters Present Firpo With Medal*

BY LUIS ANGEL FIRPO

(EXCLUSIVE DISPATCH)  
(Copyright 1928 in United States and Canada by World American News Alliance, Inc. Copyright South America by La Nacion. All rights reserved.)

NEW YORK, Sept. 13.—Today was the happiest that I have spent for many weeks. It is not a thing of pleasure, this business of training for a fight and my delight that the training period was at an end was not marred by fear of what may happen tomorrow night. I had a perfect night of sleep after my journey here from Atlantic City. In the morning, after I awoke and ate my breakfast, I took a walk on Riverside Drive and had a rub-down when I returned to the apartment where I am staying. Then I slept again for a little time and near noon I walked down Broadway with some friends and had lunch at a restaurant. During the early part of the afternoon I talked with friends and we made jokes about the fight. One of the friends said, "Firpo, if you are indeed as unafraid as you seem then you are a remarkably courageous man and if your are only seeming to be unafraid then you are a remarkably great actor." I do not understand why so many think that I should be afraid. When I remember the dangerous things that I have done in my life I smile to hear that anyone believes I would have fear of fighting a man as a real warrior on the spot. Once I crossed Andes in midwinter on foot. That was indeed danger. I had then not the gloved fists of a man to fear, but the might of onlookers and I say with truth

#### Two Weeks at Idyllwild including 2-Day Horseback Trip to San Jacinto Peak \$67.50

Everything paid from the time you leave Los Angeles until your return. The boat that California has to offer in Mountain and Desert beauty, Horse Fare and Camping Trip are included. A special rate during the month of September. Details in the Mexican.

The horseback trip to San Jacinto Peak is pronounced the most wonderful in the West.

Peak leaves from Idyllwild Inn at 8:30 a.m. on September 4th, 11th, 14th, 18th and 22th, arrive at Round Valley same day at 4:30. 1000 feet below San Jacinto Peak, after luncheon at Tengui's Inn, and an hour long Hike up the mountain. Weather dependent, and the weather of the hot, Dad Chapman, will have a beautiful campfire supper piping hot, then a big hot fire, after that a cool swim in the 1000 foot deep lake, then a dip in cold water. The Peak is in the early dawn, and you see the sun rise out of the desert 12,000 feet below. Then breakfast, then a great meal of bacon, eggs, ham, beans, coffee, cakes and Coffee await. The horseback trip to Idyllwild starts at 8 a.m. arriving at the Inn by evening stages at 4 o'clock, where a hot bath and a big dinner round out the day.

All this includes transportation and ticket from Los Angeles and two weeks' Board and Lodging at the Inn. \$67.50

Secure a room at one of the electric stations. Make reservations in the regular way. Idyllwild, Inc., Idyllwild, Cal.

Scrip

#### NOW REDEEMABLE BY DEALERS

To extend for you the utility and convenience of Standard Oil Company scrip, we have so arranged that it is now redeemable not only at all Standard Oil Company Service Stations, but also at garages, service stations and other places where Red Crown gasoline, Zerolene, and other Standard Oil Company products are sold.

This broadening of our service enables you to use your Standard Oil Company scrip in the purchase of our products at thousands of dealers handling these products, as well as at the conveniently located Standard Oil Company Service Stations, which now number nearly 700 and are constantly becoming more numerous throughout the Pacific Coast States.

It means that wherever you may go, in cities, towns, valleys, mountains, in every busy mart and at every cross roads, you will be able to use your Standard Oil Company scrip at dealers displaying the familiar Red Crown gasoline sign, as well as at Standard Oil Company Service Stations.

Standard Oil Company scrip, in small booklets of convenient size, is obtainable at our Service Stations and other sales offices, either when you call or by telephoned order. It is redeemable on the same basis at dealers selling our products, as at our Service Stations.

## NOTICIAS MUNDIALES DE ULTIMA HORA

En obsequio a nuestros numerosos amigos de habla española, para beneficio de los lectores americanos del Times que estudian esa lengua, publicamos diariamente esta columna en castellano, con un extracto de las más importantes noticias de última hora.

Bueno para el futuro progreso de Los Angeles, que es la megalópolis de los Estados Unidos que más cerca se halla a territorio latino-americano, habrá de depender de las relaciones que logremos establecer con nuestras hermanas, las repúblicas del sur. Para que lleguen a ser enteramente cordiales, no hay nada tan importante como que nuestros ciudadanos se familiaricen con la lengua castellana. Tan se da cuenta de este hecho nuestros habitantes, que hay al presente más de 25,000 personas que estudian español en Los Angeles. A ellas les conviene leer todos los días esta columna, en la que encontrarán español correcto y enteramente moderno.

#### NOTAS TELEGRÁFICAS

Noticias de Washington

WASHINGTON, Septiembre 13.—

En opinión que ha sometido al Presidente Coolidge, el Procurador General Daugherty sostiene que el Primer Magistrado no tiene facultades para hacer uso de las fuerzas navales para sostener la ley.

La Comisión Hullera ha atacado el sistema llamado "check-off", consistente en retener a los obreros en su trabajo por la diferencia. Hasta tal ataque en su informe sobre la condición de los braceros en la industria bituminosa.

El General Pershing ha publicado una exhortación en pro de los auxilios para los japoneses.

Existe la Revolución por España.

PARÍS, Septiembre 13.—La revolución que encabeza en España el Campesino Demócrata, Rivera

que está extendiéndose por toda la península ibérica, es el resultado de años de caos nacional que ha sido empujado por la crisis por los socialistas, comunistas, anarquistas y agitadores obreros.

Los recientes revueltas en Marruecos con los reclutamientos de tropas.

Los trabajadores que han acordado, hicieron que las cáracterísticas condiciones se resolvieran en revolución.

La situación principal de Cataluña, han sido de carácter francamente revolucionario por algún tiempo.

Esta ciudad es el centro de los movimientos revolucionarios y de la agitación obrera de índole anarquista. Allí han sido frecuentes los rumores de la amenaza de revolución. Los catalanes no tienen miedo espabilado en el mismo sentido que lo son los castellanos. Distintos de los graves, orgullosos e indóletes hidalgos catalanes, que descienden de colonos griegos y romanos, y tienen mucha sangre del sur de Francia, son activos, emprendedores, impulsivos y dados al comercio; y profesan desprecio por todo lo que

#### DEPORTES

Prácticas

Este noche defenderá su título Jack Dempsey, campeón mundial de gran peso, contra Luis Angel Firpo, su retador argentino, en una pelea de quince asaltos, que se celebrará en el Teatro del Paseo en Nueva York. Las apuestas están en la proporción de tres a uno en favor de Dempsey, que es el favorito. Firpo lleva una veintena de victorias y seis derrotas y de tres pulgadas de altura. Como 30,000 personas se juntan que presenciarán el encuentro.

En Los Angeles, esta noche, en el número principal del programa del Instituto de la Legión Americana, en Hollywood,聚集着 Jimmy Kackley.

En Los Angeles, esta noche, en el

número principal del programa del Instituto de la Legión Americana, en Hollywood,聚集着 Jimmy Kackley.

Los Angeles derrotó ayer tarde a Seattle en un doble partido jugado en el parque Washington. Los resultados fueron de 4 a 3 y de 5 a 3. Verano, el salvador de San Francisco batió a Portland por 6 a 5, y Oakland le pego a Salt Lake por 14 a 11.

En las ligas mayores, Babe Ruth avanzó hasta tener un home run de menos que Cy Williams, de los Phillips, pues logró su trigésima cuarta en el bateo, superando el golpe del hambruno. Budier le ganó a Taunay derrotar a Chicago por 3 a 2.

Tennis

William M. Johnston, Francis Hunter, Britton J. Norton y John T. Tilden II, estuvieron en el juego de campeonato nacional de lawn tennis, después de la tanda de ayer. Derrotaron, respectivamente, Frank T. Anderson, Bob Kinney, R. Norton Williams y Manuel Alonso.

# NEWS OF SOUTHERN COUNTIES

## CHURCH UNDER ARMED GUARD

**Precautions Follow Threats Against Evangelist**

**Burning of Structure Also Promised, Say Rumors**

**Sentinels Stationed at All Doors of Edifice**

**EXCLUSIVE DISPATCH**

ANAHEIM, Sept. 13.—Armed guards were placed around the temporary tabernacle of the Christian Church here tonight when it was reported that threats had been made against the life of E. L. Erickson, evangelist, who has been conducting revival services here during the last three weeks, while it was rumored that the building would be burned to the ground if the services continued sentinels were stationed at all entrances to the large tabernacle. Automobiles, silhouetted by searchlights, could be seen parked on the streets surrounding the building. Other automobiles, flashing mysterious signals as they traveled in the vicinity of the tabernacle, drew the attention of the guards last night, but an investigation failed to connect their movements with any of the asserted threats. Erickson, who was born in Sweden and converted, has been bitter in his attack on the system of his former church.

### INSANITY IS PLEA

**Attorney for L. R. Crocker Gets Felony Trial Postponed**

**By a "Times" Staff Correspondent**

PASADENA, Sept. 13.—Declarating that L. Robert Crocker, said by police to be a swindler de luxe, who was arrested in Long Beach recently while engaged in a robbery at a bank for \$26,000 was insane and that he had been confined to the County Hospital for treatment, George Friends, attorney for the defendant, today obtained a postponement of the trial in the Pasadena Justice Court.

It is charged that Crocker was engaged in a butter-and-milk business in Pasadena. During that time he is said to have passed numerous checks, largely amounting to \$100,000, which disappeared. He is said to have worked similar deals in various cities throughout Southern California.

A number of Pasadena merchants were in court this morning to press charges against the defendant but were instructed by the court to return Monday when it was believed Crocker would be able to appear.

### OXNARD LIONS HOSTS

**Charter Night Celebrated With Neighboring Clubs**

**EXCLUSIVE DISPATCH**

OXNARD, Sept. 13.—The Lions Club celebrated charter night this evening, entertaining 350 guests. Lions with their ladies came from Ventura, Hollywood, Long Beach, Culver City, Santa Ana, Compton, Sawtelle and other Southern California cities. As a token of friendship between the Hollywood and Oxnard clubs the former organization sent a huge silver trophy weighing almost two tons as a gift to the local club. The lion was placed on the sidewalk in front of the Masonic temple, where it will be placed in the plaza after tonight. At 7:15 an elaborate banquet was tendered the various local members in the Masonic temple. Speeches and musical entertainment were featured during the meal. Following the banquet a dance was held in the ballroom.

### SAN JOAQUIN FRUIT HOUSE GOES TO WALL

**BY A P. NIGHT WIRE**

FRESNO, Sept. 13.—Announcement of the failure of the E. Y. Folsom Packing Co., one of the largest fresh and dried fruit organizations in the West was made by local creditors here today. It was announced that W. E. White, of Los Angeles, a banker, had been named receiver by the Los Angeles Federal court this afternoon. The firm, put at \$1,000,000 and liability considerably more than \$2 million, had been incorporated for \$2,500,000. Demoralization of the eastern grape market absorbed as the reason for the failure.

### COTTON GROWERS AT CALEXICO WEAR SMILE

**CALEXICO, Sept. 13.—Cooler weather and increasing prices for cotton combined this week to place smiles on the faces of cotton growers in Imperial Valley. Hot weather during the first week of the month is asserted to have damaged the cotton materially by causing the casting of squares and reducing the yield. Cool weather will have the effect of aiding the maturing of the squares and also causing bolls to open more slowly and mature the fiber, according to old-time cotton planters. The indications now are that the cotton crop will prove the best in several years so far as the quality and price are concerned.**

### WEST DISTRICT PLANS STATE FLOWER SHOW

**By a "Times" Staff Correspondent**

SAWTELLE, Sept. 13.—Plans for a State flower show which will place the West Los Angeles district in the limelight in the same manner that Pasadena's Tournament of Roses, San Francisco's Orange Show, and exhibits of other cities have, are being discussed by florists and interested civic leaders in this vicinity. Although the idea is in the embryo stage, much encouragement has been given and in the course of the next few weeks it is expected the movement will have gained definite form.

It further called upon Congress

## BLACK FIG PRICES SLASHED

**California Growers at Fresno Session Announce New Scale for 1923 Crop**

**EXCLUSIVE DISPATCH**

FRESNO, Sept. 13.—Opening prices on 1923 crop black mission figs that were fixed last Tuesday by the directors of the California Peach and Fig growers in session here, were announced today by the association. They represent large reductions from last year's opening figures. The scale announced, all prices f.o.b. California packing-houses, is as follows:

In 25-pound boxes; Standard, 5 3-4 cents per pound; choice, 7 cents; extra choice, 8 cents; fancy, 9 1/2 cents; extra fancy, 11 1/2 cents. In 50-pound boxes: Standard, 5 3-4 cents per pound; choice, 7 3-4 cents; extra choice, 14 cents; fancy, 17 1/2 cents.

**REVISED PRICES QUOTED**

The association also is quoting revised prices on the 1923 crop of dried peaches at an advance of three-quarters of a cent a pound on practically peeled peaches and eight cents a can on unpreserved.

Last year the opening price to the trade on standards was 11 1/4 cents on choice 14 1/4 cents and on fancy 17 1/2 cents.

**CAUSE OF HIGH PRICES**

While association officials would not comment on that phase of the situation, it is not secret in trade circles that a second crop of Fresno, that last year's high prices for black figs were brought about by the demand for the California fruit from sources suspected of using it for other than food purposes.

The large demand last year and the consequent high prices are believed to have resulted in the Eastern manufacturer seeking less costly materials.

As a consequence the fig has suffered severely from the withdrawal of inflation that is believed to

OCTOBER, 1923.—The peach prices, set by J. H. Niswander, president of the management's belief that the policy adopted in 1922, that of opening at a figure low enough to stabilize the market, has had a strengthening effect. The association's price scale is designed to establish trading in markets that have been quiet for several seasons and the outlook, says Niswander, is promising for brisk trade.

"The price scale," he said, "is a good indication of the fact that Trenton had given his life for his country."

**SIX STILL FOUND IN OXNARD RAID**

**EXCLUSIVE DISPATCH**

OXNARD, Sept. 13.—Six stills found in the last two days were obtained by Chief of Police Murray, who made a series of several arrests of bootleggers' places in various parts of the city.

In one house, two good-sized stills were found. A woman was in the house but she denied knowledge of them. She said her husband was in the company kitchen. The stills were hidden in a hole in the floor of the house.

Three small barrels of mash also were found. On one still in this house was a brass plate, on which was printed "The Federal law requires that this still be registered with the United States Bureau of Alcohol, Tobacco and Firearms." Call him in your district before using same."

This still probably was stolen from someone apparently permitted to operate it.

On the six other stills found by the police, the largest was a ten-gallon tank. None of them was in operation. The stills were taken to the police station where they will be destroyed.

### DEMAND FOR ALFALFA SEED SHOWS INCREASE

**BY A "Times" Staff Correspondent**

BRAWLEY, Sept. 13.—Seed dealers here declare that the demand for alfalfa seed this year indicates that there will be a large increase in the production of alfalfa.

Dr. C. L. Gardner, of Los Angeles delivered the dedicatory address on the subject of "Civic Building," in which he characterized the modern city as both the hope and promise of American civilization. R. C. Harbinson, well-known Southern California newspaper editor, was general chairman of the exercises.

Included in the Wednesday night's program was an acoustic test in which pins were dropped in corners of the huge auditorium.

The sound of insulin is immediate, and the cures are little short of marvelous, almost like bringing people from the dead in as well anyone," said Dr. Gardner.

Dr. Gardner says that because of the difficulty in making and the necessity of having a pure fluid, the Canadian government patented the insulin process, and the firm

is providing it to the medical profession at cost.

### SEEK SCHOOL SITE

**Santa Monica Board Moves to Condemn Whole Block**

**By a "Times" Staff Correspondent**

SANTA MONICA, Sept. 13.—The Board of Education took initial steps toward school improvements under the recent bond issue when it voted for condemnation proceedings to acquire a block of land between Eighth and Ninth streets and Montana, and Alta avenues was made this morning. The block, containing more than five acres, will be the site for the new Roosevelt School.

Members of the board voted to reject the proffered lease of the Grace Methodist Episcopal Church in which to seat the "overflow" from the McKinley school, when the school was put up for sale by the city. Commissioner Carter stated that a special bond election may be called for a date within fifteen days from the time of passage of the requisite ordinance.

### RECKLESS DRIVER IN JAIL; CAN'T PAY FINE

**By a "Times" Staff Correspondent**

SANTA MONICA, Sept. 13.—John Carlin, 27 years of age, 1924 North Kenmore street, Los Angeles, is in the Santa Monica jail in default of payment of \$250 fine imposed by Superior Court yesterday. Carlin, who was arrested by Police Judge M. R. King, was charged with driving with reckless driving. The judge remitted \$100 of the fine on condition that Carlin pay the remainder. He was arrested late Saturday night by local motorcycle officers.

### CRIMINAL CASES TO BE HEARD AT EL CENTRO

**EL CENTRO, Sept. 13.—Superior**

Judge Cole, back from holding court for two months in Los Angeles, is preparing for the opening of the fall criminal trials. Seventy men have been summoned for jury duty. They were ordered to report next Monday when the first trial will be heard.

Dist.-Atty. Utey said he had eighteen criminal cases set for trial in the twenty days beginning Monday.

Despite the fact that Imperial county has two Superior Court departments, the earliest dates available for cases set this week were in December and several cases were set for January.

**ASSAULT TRIAL ENDS WITH DISAGREEMENT**

**EXCLUSIVE DISPATCH**

HANFORD, Sept. 13.—The sensational case of the People vs. Antonio Occhiena ended at 9 o'clock yesterday with a disagreement of the jury, which stood eleven for acquittal and one for conviction.

The resolution of indorsements of the Swing-Johnson bill recited the fact that 3,000,000 acres of land in California, Arizona and Nevada, mostly in the Colorado River basin, were Norman E. Malcolm, City Attorney of Palm Alto, vice-president; W. J. Locke, San Francisco, secretary-treasurer; and H. A. Mason, San Francisco, re-elected secretary-treasurer.

It further called upon Congress

## OFFICIALLY DEAD HERO ARRESTED

**PRE-WAR WIFE BEING SOUGHT AS PRESENT SPOUSE PRESSES CHARGES**

**BY A P. NIGHT WIRE**

FRESNO, Sept. 13.—When Alton Treston of Kings county returned from the war bearing wounds received in the Argonne, he found he had been officially reported dead by the War Department. So he made a decision to start life anew. He became Benjamin Zack.

These facts were revealed upon his arrest here on a charge of bigamy, and he was taken to prison for an infant child.

In 1915, Treston married Miss Jessie Hubbard of Hanford. Returning from service, under the name of Benjamin Zack, he married in San Francisco. By his second wife, he became the father of two children. Dissatisfied, he left, taking with him the baby daughter, Mrs. Zack, who was cared for by the boy.

Police finally found him in Fresno. An effort is being made to locate his first wife and learn his whereabouts. Treston was taken to San Francisco by Detective Jack Broad last night.

A gold star adorns the service flag of the Hanford Post. American Legion, indicating his participation in the war.

He was given a certificate of

## FIND UNIDENTIFIED BODY

**HEAD SPLIT AS THOUGH BY AX; CORPSE DISINTERRED BY COYOTES NEAR ROAD ON CAJON PASS**

**EXCLUSIVE DISPATCH**

ONTARIO, Sept. 13.—The body, apparently murdered, of a human being—whether man or woman, has not been determined—was found today in a shallow grave in Cajon Pass, barely thirty feet from the highway. It has been disinterred and partly eaten by coyotes, making identification difficult, and the skull was split from temple to temple across the forehead, as if by blows from an ax.

This grawsome mystery, which Sheriff Shay and all his available deputies set to work upon once, was discovered by John S. Nielsen, an Ontario warehouseman, returning from a trip to Barstow. As he returned from a trip to Barstow, his body protruded from a shallow hole about four feet square, the head and upper portion being plainly visible from the road. It was badly decomposed.

**POSSIBLE AUTO VICTIM**

A theory advanced here was that the dead person was the victim of an automobile accident on the lonely road and had been buried by motorists who had struck him down and feared to report make a close enough examination of the fact.

Mr. Nielsen said he did not know of the body to determine what sort of a weapon had been used upon it, but said it was evident that a violent death had been inflicted. He telephoned the Sheriff's office as soon as he arrived in town and the Sheriff and deputies went to the scene at once this morning. They have not yet reported.

**NEAR BEND IN ROAD**

The spot where the body was found is on a horseshoe bend in the Cajon Pass road, about three miles from Cajon Station. The service, Mr. Nielsen said, were indistinguishable and there was no clothing on the visible portion of the body. Mr. Nielsen did not disclose it, preferring to leave it as it was for the authorities to see.

Police records here show that

## DIAZ VICTIM OF LEGACY RUSE

**MEXICAN PAYS FEES, BUT FINDS "OLD TIMER" FRIEND LIVING**

**EXCLUSIVE DISPATCH**

SANTA ANA, Sept. 13.—A Diaz, Mexican resident of Stanton, was one of several claimants of a legacy at San Bernardino, according to his story here today which revealed a new form of confidence game apparently played on many Mexican residents of Southern California.

Diaz paid \$20.50 to a smooth stranger, apparently with the badge of authority, who informed him that a \$1800 legacy at San Bernardino was left him by an old-time friend.

But at the appointed time when Diaz reported to the San Bernardino Courthouse, he was informed there was no legacy and that his old-time friend was still alive; also that several others had appeared for the same legacy.

**POSSIBLE AUTO VICTIM**

A theory advanced here was that the dead person was the victim of an automobile accident on the lonely road and had been buried by motorists who had struck him down and feared to report make a close enough examination of the fact.

Mr. Nielsen said he did not

know of the body to determine

what sort of a weapon had been used upon it, but said it was evident that a violent death had been inflicted.

He telephoned the Sheriff's office as soon as he arrived in town and the Sheriff and

deputies went to the scene at once this morning. They have not yet reported.

**EFFORTS TO FIRE HOUSE ARE FOILED**

**BURGLARS THOUGHT SCARED AWAY AFTER SPREADING OIL IN ORANGE RESIDENCE**

**EXCLUSIVE DISPATCH**

ORANGE, Sept. 13.—Following the dump of kerosene over the floors, burglars, who entered an unoccupied house, owned by Mrs. Mary G. Padua, some time during the week attempted to set fire to the place, the owner stated in a report filed at the police station.

Mr. Padua, who was captured late yesterday, was apprehended by Sheriff Jernigan and Constable Ryan shortly after dark when he entered his residence to find the intruders.

Padua, who was captured early this morning, was made to stand over the ironing board, and his hands were tied behind his back.

## RAISIN TONNAGE SLUMP FEARS

**Sun-Maid Output May Be Affected by Mildew**

**Precaution Taken to Hold Up Quality of Product**

**Preventive Bureau To Aid Growers**

**EXCLUSIVE REPORT**

**FRESNO, Sept. 13.—A** noticeable reduction in the available tonnage of Sun-Maid raisins is officially cast by the raisin association issued today by the association to all division offices. The association also announced formation of a mildew bureau in the department, the purpose of which will be to give all possible information to the growers in path scattering to the mildew situation.

By this means it is also hoped to develop necessary preventive measures to be adopted by the grower to avoid a possible reduction in quality because of mildew. All growers are being urged to take advantage of the counter and at unit price, if it would be suicidal for the grower to pack out under the Sun-Maid trade-mark raisins because of damage by mildew.

Attention is called to the fact that whereas a premium of \$10 per ton is being paid for standard quality, a penalty of a ton is also applied against the grower for standard fruit.

Attention is called to the fact that whereas a premium of \$10 per ton is being paid for standard quality, a penalty of a ton is also applied against the grower for standard fruit.

No announcement has been made as to what will be done about raisins which have standard quality and do not connect with growers and the association is urging them to take advantage of the fact that whereas a premium of \$10 per ton is being paid for standard quality, a penalty of a ton is also applied against the grower for standard fruit.

Swast boxes held by the grower are fast as empties as they come out of the last parts of the crop.

**JUDGMENT SOUGHT**

**Bakersfield Man Asks Sale of Property**

**LOCAL COMMERCIAL**

**BAKERSFIELD, Sept. 13.—With an** action suit of George W. Price, Kern Realty Company, before Judge Erwin W. Cohn and the attorneys can be decided on April 12.

Twenty days ago Mr. Price filed a suit against the Kern Realty Company for the sale of oil property near Bakersfield on April 10.

Price claims to receive compensation for his services in the sale of property whatever he receives.

The purchases of the Kern Realty Company for one-fourth of the property.

On April 12 he rendered a deed to the realty company of Cohn, president, for a deed to the property.

Cohn refused to accept the deed.

He asks \$5000, said to be the amount of his claim to one-fourth of the property.

## Business; Financial; Markets; Investment

### AIL TO PACIFIC COAST TRADERS

**Secretary Hoover Assigns an  
Expert to Advise**

**Federal Help in Exploiting  
Our Foreign Markets**

**Bean Prices Strong; Building  
Bonds Offered**

Bringing the expert services of the  
Bureau of Foreign and Domestic  
Commerce to the attention of the association  
of Pacific Coast manufacturers and  
distributors is the task assigned by Secretary of Commerce Hoover to Leonard B. Gary, who arrived in Los Angeles yesterday  
to advise business men interested in foreign trade development.  
Mr. Gary has established offices in San Francisco, from where he will direct the work of assisting the Coast cities to expand  
their foreign markets.

The Bureau of Foreign and Domestic Commerce, Mr. Gary said, "has expanded its services under the direction of Secretary Hoover, and we now have a variety of general and specific information gathered by a corps of trained representatives to business men in the United States who are interested in selling their goods in foreign markets. The data is compiled in public and private reports and are available to all American firms."

Pacific Coast exporters have not availed themselves fully of the services of the bureau in the hands of the bureau and we are anxious that our reports shall be of assistance to them in placing their products in the right manner and in the correct markets at the best possible advantage."

The bureau's representatives, Mr. Gary says, collect trade information on specific commodities and on the character and advantages of the market. The committee reports include statistics and leather, lumber, industrial machinery, minerals and metals, paper, petroleum, rubber products, shoes and leather manufacturing, textile and automotive products, electrical equipment and others. The reports describe the opportunities for these commodities in the various world markets, the price trend, competitive factors, local customs, marketing methods and tariff practices.

**COLLECT DATA**

The regional divisions collect and disseminate basic information on foreign markets. The divisions are the Western European, Eastern European and Levantine, Latin American and Far Eastern, each in charge of trade information fully competent to act for American business men in furthering foreign trade development. These representatives cable pertinent advice to the Washington office on the latest developments in news of their divisions, covering banking and financial affairs, currency conditions, government economic programs, trade laws, customs regulations, purchasing power of the national units and the course of the commodity and security markets.

Special technical reports are also prepared, especially subjects of the art of packing for shipment to different countries, importation of tariffs, customs laws, local transportation regulations, commercial law and ocean carrier routes and costs.

Upon request from business men in Los Angeles and other Pacific Coast cities, Mr. Gary says the Bureau of Foreign and Domestic Commerce will supply lists of buyers in specific foreign markets who have interests for American products. These lists are compiled from the information obtained by the 1920 representatives of the Department of Commerce constantly at work in foreign fields.

The foreign trade of the Pacific Coast, he asserts, is assuming appreciable importance in the total trade of the United States as exporters efficiently cultivate their foreign markets to the Far East, the West Coast of North America and of South America, and in England. Increasing quantities of timber, crude and refined petroleum, fresh and dried fruits, wheat, shives, apples, oranges, inns, office equipment and other products of the large majority of the goods are produced or manufactured west of the Rockies, although eastern manufacturers and distributors are establishing selling points on the Pacific Coast in recognition of the possibilities lying in the markets reached by way of the Pacific Ocean.

Mr. Gary's visit here and conferences with exports were arranged through Horace Cutler, business manager of the World Traders of Los Angeles.

**ADD TO STORAGE**

Construction of storage facilities to accommodate 50,000 barrels of crude oil has been completed by the Gilmore Oil Company in its San Diego branch, according to an announcement made by George R. Stillson, manager of the company's stock sales department. Along with this, the company has installed a complete unit for heating the oil to the temperature required in Southern California road construction.

The new storage, not only appreciably strengthens the Gilmore business in the San Diego field, but augments to an important extent the company's general storage capacity. At the end of August it was announced that the company had begun construction of two 55,000-barrel tanks at its tank farm at Hynes, Cal.

**STEEL SALES**

Eastern stocks of beans have become so depleted that high hand-to-mouth buying during July, say the California Bean Growers' Association, that the month of August has developed some good sales. The market interest has centered about the red, white, pink and California red beans.

With renewed interest and buying have come better prices. Large whites, however, have suffered in the matter of price because of lack of buying which may recover during September, in the opinion of the association. Small whites are not in sufficient quantity to meet the demands while red kidney beans have no attention from buyers and only small quantities are moving. Cranberries and bayos are expected to disappear from the market soon.

### DISASTER REACTION

**Forecast of Probable Effects on Trade Here; Comparisons Fail; Financial Situation**

In attempting to forecast the probable effects of the Japanese disaster on our financial community three main points call for consideration: (1) The position of the American insurance companies; (2) the extent to which Japan's foreign banking balances may be drawn down to finance its reconstruction. The natural inclination is to attempt a solution of the problem by consulting precedent, and for this reason many have been made to the San Francisco earthquake. The analysis, however, fails at almost every point and is more likely to mislead than to illuminate. Even if the economic consequences were to prove as severe as those experienced in San Francisco, the conditions are not comparable to those in the market.

The San Francisco earthquake came at a time when public speculation was very high, and the demand for cotton was excessive. These conditions are not present at present and for this reason alone comparisons are futile.

So far as can be learned, the losses of American insurance companies in Japan will be negligible. The British underwriters of Lloyd's will probably suffer good-sized losses, but the old-line companies will lose little or none. The position of the greatest of the British companies stated, to the writer this week, that \$10,000,000 in dry goods district of New York would cover them, though the Japanese disaster is all their losses.

Until the details of the disaster are available we can only speculate in a general way as to the probable financial effect of the various products which Japan buys from us. The theory that there will be a marked increase in the demand for cotton is absurd, but this must be taken with reservations. Demand for clothing is largely dependent on the purchasing power of individuals, which is independent of the availability of this kind. In particular, the textile industry, which is the first to suffer, simply because it is possible for the masses to economize more promptly in that direction than in any other. With the reconstruction material the picture is different. The rebuilding of Yokohama and Tokio were mostly of brick and stone, but the San Francisco earthquake demonstrated that masonry, steel and concrete will withstand seismic disturbances better than any other form of construction.

There are already evidences of increased demand for steel and iron, and the market for iron pipe in Japan is strong. The modern buildings of cities are financed by banking corporations or individual credits, or through reserves or insurance funds. It is reasonable to assume that the Japanese demand for steel and iron plate, lumber and copper will be materially increased in the near future. More structural steel will be used in the work of reconstruction.

The market opened steady at a decline of 8 to 22 points and sold off shortly after the call under further scattered liquidation and southern selling. Railings from this market level were held by contracts. At its best the list was about 4 cent above the previous closing, but prices eased again under renewed scattered liquidation in the afternoon and closed at 20 cents below the low.

Spot cotton was quiet, 50 points

lower. The trade again showed nervousness at the 25-cent level which seemed to be a dividing line between increased offerings on advances and increased buying on declines. On the whole, reactionary sentiment appeared to be gaining ground.

## ALL SOUTHWEST IS PROSPERING

**Business Good in Nearly All Lines; Texas Returns**

**Live Stock and Oil Reflect Fewer Silver Linings**

**Labor Well Employed; Rails Are in Good Shape**

**EXCLUSIVE DISPATCH**  
DALLAS (Tex.) Sept. 13.—Business in almost every line in the Southwest has shown an improvement so far this year over the corresponding period last year, and the indications are that business this fall will show an even greater percentage of improvement over the fall month of 1922, according to Frank M. Smith, president of the Dallas Chamber of Commerce. The chief deterrent is the oil industry, which has been adversely affected by overproduction and low prices.

For a time it appeared that Texas, with \$12,000,000 worth produced nearly 40 per cent of the nation's crop. This was cut short by continued drought, and now the estimate ranges between 3,500,000 and 3,700,000 bushels. On present indications this crop, together with the seed will bring around \$400,000,000. Texas had a crop of around 3,250,000 bushels last year.

Texas' wheat production this year is estimated at 1,000,000 bushels; corn, 55,000,000 bushels; grain sorghums, 50,000,000 bushels; rice, 5,000,000 bushels; hay, 1,200,000 tons. Citrus fruits and vegetables have so far brought about \$2,000,000 to the state. The oil clip brought about \$12,000,000. Average in virtually every crop save oats was reduced this year because of increased cotton acreage.

Cotton and all other Texas crops have been produced this year at less expense than any year since before the war. Farmers are confident of good prices. Marketing will be handled in part by the entire Southwest this year than ever before. The Texas Farm Bureau Cotton Association expects to handle 200,000 bales co-operatively, as compared with 100,000 bales last year. The Farm Labor Union also will assist in orderly marketing. The Federal Reserve Bank of Dallas established a precedent when it informed its 82 member banks of the situation, and it stands ready to aid faithfully the orderly marketing of the southwestern cotton crop.

The live-stock industry in the

Southwest has suffered somewhat from low prices, but stock are healthy and in fair condition and their cost of production has been low. Live stock has averaged 100,000 pounds of last spring's wool clip, which totaled 17,000,000 pounds, and 350,000 pounds of last spring's mohair. The producers are holding their prices, and appear not to be pressed for funds. The outlook is good for the fall clip of wool and mohair.

Labor is well employed, although the large cities still are continuing to be pressed for funds. The

## REALTY MAN INDICTED IN CHECK DEAL

C. A. Heinrich Accused of Attempted Larceny in Mexico Estate Case

C. A. Heinrich, a real estate broker, was accused of attempted grand larceny of \$5000 in an indictment filed yesterday with Judge Avery of Superior Court. Ball was fixed at \$5000. The indictment follows Heinrich's own appearance before the grand jury, which previously had heard other witnesses.

It is charged that Heinrich advertised for a superintendent to take care of his wife, the widow of his estate, offering \$250 a month salary. William C. Crandall, a retired farmer, applied for the place and was told he must deposit \$5000 as a guarantee of his fidelity. He advised of members of the police bungo squad, Crandall gave Heinrich a check for \$5000 and the arrest followed.

Heinrich is reported to have broken up Heinrich's negotiations with a San Francisco millionaire for the development of a large tract Heinrich claimed to own in Southern Mexico, and in which it is declared he had induced the millionaire to put \$350,000 in escrow while he himself posted two checks totaling the same amount, drawn on a bank account against an account in a Chicago bank which was insufficient to meet them.

## Class A Hotel to be Built on Eighth Street

A new six-story class A hotel is to be erected soon by Attorney Joe Crail, his brother. Presiding Judge Charles S. Crail of the Superior Court and Harry Jackins, realtor, on the northeast corner of Eighth and Francisco streets.

The building will contain 185 guest rooms with tile bath in connection and all up-to-date conveniences and will be provided for the accommodation of its patrons. Part of the first floor will be used for the lobby and the remainder devoted to business uses.

A prospective tenant has not yet chosen the name of the prospective tenant has not been made public.

The tract on which the hotel is to be located was subdivided by Mr. Jenkins in 1903, but with the development of Los Angeles it has become a close-in site. The new bus line from Pershing Square out Eighth street and Wilshire Boulevard will afford easy transportation from the hotel to the downtown section and to residential sections.

PSYCHOLOGY LEADERS TO MAKE PLEAS LATER

A large delegation of the membership of the local temple of the Society of the New School of Applied Christianity and Psychology, located at 1160 West Twenty-seventh street, of all ages and both sexes, tramped into the room of U. S. Commissioner of Internal Revenue, expecting to see the preliminary examination of the heads of the institution. Dr. W. E. Price and Ben McLennan, who are under indictment by the Federal grand jury for misuse of the mails. But they were disappointed, as the defendants, having been indicted by the jury, may now plead guilty or stand trial. Gertrude M. Caldwell, who gave her address as 1160 West Twenty-seventh street, and who was indicted with Price and McLennan for alleged embezzlement of the mails, gave bond of \$10,000 for her appearance for further court proceedings.

## MUSEUM EXHIBITS OPENED

Additions to Permanent Collection and Third Showing of Water Colorists Now on View

Two important exhibitions opened at the Los Angeles Museum yesterday and will continue until October 12. In part of the gallery the museum is showing its own permanent collection of paintings; the rest is hung with the third annual California Water Color Society's exhibition.

The museum's permanent collection has been greatly enriched in the last few months by a number of important canvases. Mr. and Mrs. William Preston Harrison's generous gift of three pictures includes a Leopold Seydel painted "Nudes" (with pianist background) and one of Gustave Brown's "Les Centraillanders." These will be added to the Harrison's at the close of the exhibition. The third picture is "Boy Listening," by Max Wieschorek, has also been purchased.

The California Water Color Society has reason to be proud of the showing. It is a much larger and more interesting exhibition than last year. There are many entries by leading watercolorists of California. The jury of selection was composed of Dana M. Scott, John Cotton, Theodore Modra, Hanson Puttuff and Max Wieschorek.

## EXTRADITION OF JENSEN ASKED

*Ex-President of Watts Bank Declared in Mexico*

*Federal Authorities Take Steps for Arrest*

*Other Cases to Come Before New Grand Jury*

Federal officials here yesterday began negotiations with the Mexican government for the extradition of Other Jensen, former president of the First National Bank of Watts, indicted by the Federal grand jury on a charge of embezzling \$50,000 of the bank.

Secret service men declare they have located Jensen on a remote ranch in the interior of Mexico, where he is working as a common laborer. After disappearance from Watts several months ago, they report that the former bank president fled to Mexico City, then slipped back his way toward the United States. He was seen at Ensenada and later at Tijuana. From there he was traced to the ranch.

Jensen's right hand is cut off, so that identification is a comparatively simple matter. The fact that he is working as a laborer is taken to mean that either he has spent the money which he took with him or that it has passed into other hands.

### SIMPLE MATTER

In view of the fact that the Obregon government is controlled by the United States, extradition is expected to be easily accomplished. The case will be one of the first of its kind since recognition.

The Watts bank was thrown into the hands of a receiver through the shortage in accounts, and Davis Duncan, appointed receiver, had decided that depositors will receive about twenty cents on the dollar. Many Watts business men are heavy losers.

Officials report that Jensen lost money in the manner taken from bank funds in视 to gain a population, attempting to swing a half dozen subdivisions simultaneously on slender capital. Since his flight, Jensen has been tried in the United States District Court, asking that Jensen be declared bankrupt. The money was based on a note for \$10,000 held by one of the city banks.

### OTHER CASES

The Federal grand jury will take up the Jensen case today. The witnesses called will include the medical board examiners who investigated the financial status of the Watts institution after Jensen's disappearance.

In addition the Jensen case, the new grand jury will consider other cases involving missing shortages of officials who have been connected with neighborhood and branch banks, the sum in each case being small, and the shortage being principally due to faulty book-keeping.

## STEINMETZ TO SPEAK HERE

*Electrical Wizard Will Lecture on Problems of His Profession and on Power Industry*

Dr. Charles P. Steinmetz, chief consulting engineer of the General Electric Company, is visiting Los Angeles on his first trip to the Pacific Coast. He will address the Los Angeles Electric Club at the meeting in the Alexandria Ballroom next Monday noon on the subject, "World Problems of the Electrical Engineer," and on Tuesday evening he will address a special joint meeting of the Technical Societies of Los Angeles on the subject, "The Electric Power Industry." This meeting will be in the Mills Auditorium of the University of California, southern branch, an industry supplying one-half of the power in America, whose demand greatly varies periodically, cannot be carried out efficiently. Such is the case with the industry of power generation and distribution to another industry.

"Thus best efficiency requires the separation of power production, just as that of any other raw material, from the industry using it power, and other raw material."

### GREAT ECONOMIC VALUE

This is what electrical engineering has done, and now consists in its great economic value. It has given the world a new industry.

"Power is necessary in all industrial operations, whether it be the manufacture of steel or of houses, food or of shoes or furniture, etc."

Therefore the production of power has been an essential part of each history.

### WASTEFUL METHOD

"But the production of power is in itself an industrial operation, and the days of the steam engine, driven mills and factories, two industries were really carried on under the same roof, in the production of power and the production of shoes or of breakfast food, etc."

"This is inefficient and wasteful. The source of our modern high industry is subdivision and specialization."

"A single industrial operation requires all the ability and attention of the administrative, technical and manufacturing staff to give maximum economy. An attempt to operate simultaneously two such different industries, as for instance the making of breakfast food or a small domestic lighting plant, or a small domestic lighting customer, are serious public difficulties, and so are the efficiency and economy of the electric power industry."

## POLICEMAN IS CLEARED OF CHARGE

*Officer Restored to Duty After Quiz Into Robber Report*

An investigation into charges brought against Peterkin William J. John, yesterday afternoon, by Acting Chief of Police Hilt resulted in the officer's release from custody and his restoration to his post.

John, a member of the crime commission of Peter Kohels, proprietor of a coffee house at 123 East Fourth street, Kohels stated that he had been held up and robbed by the office of \$50 in an alley earlier in the morning.

The officer was taken into cus-

### ACCUSED OF FRAUD

Grace Gilbert, alias Grace Weaver, was arrested yesterday by Constable Bowen and Deputy Sheriff Patton on an embezzlement charge. She is accused of having sold a lot in Maricopa, Maricopa county, for \$6000 to D. D. Haegerty, although she is said to have sold the lot previously to another person. She will be returned to Maricopa for trial.

## DEMPSY-FIRPO FIGHT ON KHJ

*Timed to Broadcast Bout by Rounds For Fans*

Night fans, incline your ears.

KHJ, the Times radio station, in the interest of pugilism devotees, will go on the air at 5:30 p.m. today with the story of the Jack Dempsey-Luis Firpo affair.

The fight, in which Dempsey will defend his heavyweight crown against the Argentina contender, will be broadcast to listeners in round by round. Times experts at the ringside will supply this information by direct wire.

Adjust your headsets and dial to 395 meters for the fastest and most accurate description of the championship imbroglio.

## MAY RESIGN IN DEBS ROW

(Continued from First Page)

when the directors voted the following unanimous protest against:

"We are entirely in sympathy with and heartily approve the stand of the American Legion, James voiced by its commander, James F. Collins, in the public press of the 11th inst., and we are unanimous in the opinion that honor should be given to the members of public buildings, he set aside for any man or men who, during the war period or other times of stress in our country, or in time of reconstruction, have given present or past services to our government or will interfere with the orderly workings of our government or with the Constitution."

Dems deserted his government in the time of its greatest need and I should like to have this body of men resign from the ranks," added Collier to the limit," was the denunciation and appeal made at the meeting of the directors by C. C. Lewis, president of the Legion. He was applauded roundly.

In order that the exact status of Debs may be determined Congresswoman Walter F. Lineberger, a member of the American Legion, today wrote the Department of Justice at Washington as follows:

"Please wire official copies if Debs has been released unconditionally or unconditionally, giving brief outline of conditions, if

## MORE TIME FOR CHARTER ASKED

(Continued from First Page)

the general provisions outlined in the committee report.

### DIVIDED ON BUDGET

Although a division arose among members of the committee recommending the executive budget, it appeared from the vote last night that a majority of the freeholders favored a budget which would place full responsibility on the Mayor for success or failure of the budget estimates and recommendations.

A petition was filed with the freeholders by representatives of the Amalgamated Council of City Employees, in which a pension for city workers or compensation during sickness or disability are proposed. The freeholders voted to retain existing charter provisions relating to the initiative, referendum and recall.

William Jennings Bryan, Jr., son of the Commoner, who is acting as attorney for the Benito's also took the stand and testified to the facts. Mrs. Benito had been paying Edwards' money under the impression that he could gain her husband's release. He described the manner in which he learned of the transaction and stated that he informed the authorities of the facts shortly after learning of them.

Edwards denies the charges, claiming the money was paid for services rendered.

## SAILORS TO JOIN AT HARBOR FETE

(Continued from First Page)

at Soldiers' and Sailors' Club, dancing, refreshments and entertainment.

7 p.m. to 10 p.m., boxing, twelve acts of vaudeville, round-by-round return of Dempsey-Firpo fight, and concert by Eiks' Band of San Pedro.

6 p.m. to 10 p.m., concert by Salvation Army Band and refreshments, Fifth and Palos Verdes streets.

## "SPICE" NOT TO PLAY IN PASADENA

*Theater Voluntarily to Cancel Show Denounced by Censor Board*

By a "Times" Staff Correspondent

PASADENA, Sept. 13.—The censor board of Pasadena journeyed over to Los Angeles last night to look over "The Spice of 1922," a musical show appearing at the Raymond Theater, 111 Greenleaf, on Saturday and Sunday night that he would voluntarily respect the wishes of the board and of several Pasadena citizens who had called on him in connection with "The Spice of 1922."

They came back determined to prevent the scheduled appearance of the show on Saturday night, 29th inst. "It is not the kind of show Pasadena would care to see," declared C. V. Cowan, chairman of the board.

A recent case demonstrated that the board has no legal right to oppose the appearance of a show of this nature, its work being limited to motion pictures.

They will make an extra legal attempt to bar the performance.

"Spice of 1922" is scheduled for the Raymond Theater, 111 Greenleaf, on Saturday and Sunday night that he would voluntarily respect the wishes of the board and of several Pasadena citizens who had called on him in connection with "The Spice of 1922."

Mrs. Short is at liberty on \$2000 bail, pending a further hearing of the criminal charge.

## MISSIONARIES TO SPEAK

Dr. and Mrs. J. C. Ogden, missionaries, will speak on Tibet at 7:30 o'clock tonight in the First Church, Glendale. The speaker is Dr. Sheldon, who was killed in the mission field, will also be on the program in Tibetan costume.

ALL NEEDS SUPPLIED—  
The Lord is my shepherd; I shall not want. Surely goodness and mercy shall follow me all the days of my life; and I shall dwell in the house of the Lord forever.—Psalm xxiii, 1, 6.

## SPOUSE WAS ECLIPSED BY STUDIOSTAR

*Photoplay Camera Man Tells Wife He Loves Actress; Divorce Given*

Mildred Gray Maryatt, played second fiddle in the trio composed of herself, her husband, Oscar H. Maryatt, and Barbara La Marr, the motion-picture actress, she testified yesterday in her divorce action brought in Judge John L. Fleming's department of Superior Court.

The Maryatts were married on November 20, 1922, and separated on February 15, last, only three months and eight days after their marriage. Maryatt was a camera man at the Douglas Fairbanks studios. Mildred told the court in the month of February, she said, he wrote her letters telling of Barbara's love for him. In one of these, dated February 12, he said: "I love Barbara more than I do you."

## BOUT PROMOTER FACES HEARING

(Continued from First Page)

ford and his opponent stepped into the ring, but so did Police Captain Adams, who called off the bout before it started.

At the first hearing on the question regarding the club boxer permit, Promoter Windsor was asked how much Langford was to be compensated for his appearance at the club. Windsor didn't remember, so the commission ordered Windsor to appear with Langford and Windsor's books showing the names of the boxers who have appeared at the club, and the compensation given each.

### NO MEDALS AWARDED

"Do you give your boxers at the club medals?" asked Commissioner De Coo.

"We are supposed to," said Windsor, "but we have not given the boxers their medals yet nor had any medals engraved, as the law required."

"I gave the boxers no money. I suppose," said Commissioner De La Monte.

"Then the boxers received no box for the funds of it," said Commissioner De La Monte, when the promoters evade the law by giving the boxers medals and then buying the medals back from the boxers. I am evading the law."

The Madison Square fight "club" is the one around which the grand jury investigation into the activities of the Police Commission, De Coo said. The grand jury, investigating the conduct of the police commissioners, had only one solid hold over the owner of the arena, De La Monte, and that was with Miss La Marr. The actress is now reported to be working on a picture in Rome.

Mrs. Maryatt was granted the decree.

## UNDERTAKER FRAUD CASE IS DELAYED

(Continued from First Page)

Mrs. Benoit Says Mortician Obtained \$1000 From Her

(Illustration on Picture Page)

The preliminary hearing of J. M. Edwards, an undertaker, on trial before Justice White on a charge of grand larceny, was continued yesterday until Saturday for final argument.

The principal witness against Edwards was Frances Benoit, from whom the accused man is said to have obtained a total of approximately \$1000. The money is said to have been paid to the accused mortician after he had promised to gain the release of her husband, Leo, out of jail. The latter is in the County Jail awaiting trial on a grand larceny charge in connection with the theft of a quantity of building tile.

Mrs. Benoit, taking the stand, declared that she had given the money to Edwards after he had agreed to fix the officers and the procurator fiscal gain the release of her husband.

William Jennings Bryan, Jr., son of the Commoner, who is acting as attorney for the Benito's also took the stand and testified to the facts. Mrs. Benito had been paying Edwards' money under the impression that he could gain her husband's release. He described the manner in which he learned of the transaction and stated that he informed the authorities of the facts shortly after learning of them.

Edwards denies the charges, claiming the money was paid for services rendered.

## GRAND JURY TO QUI DAUGHERTY

(Continued from First Page)

used by the Supervisor, in denouncing this department and its employees, in view of the character of the work and in view of the attitude of the company as evidenced by its attorney, I am at a loss to know just how Mr. Wood expects to justify his stand. The matter of obstruction of justice for the defense is a small matter compared to broad charges that graft runs rife in any public office. The citizens and the taxpayers have a right to know the truth or falsity of such allegations.

A petition was filed with the freeholders by representatives of the Amalgamated Council of City Employees, in which a pension for city workers or compensation during sickness or disability are proposed. The freeholders voted to retain existing charter provisions relating to the initiative, referendum and recall.

William Jennings Bryan, Jr., son of the Commoner, who is acting as attorney for the Benito's also took the stand and testified to the facts. Mrs. Benito had been paying Edwards' money under the impression that he could gain her husband's release. He described the manner in which he learned of the transaction and stated that he informed the authorities of the facts shortly after learning of them.

Edwards denies the charges, claiming the money was paid for services rendered.

## WIFE WAITS TRIAL; GETS HER DECREE

*Woman Accused of Slashing Rival Wins Divorce After Lively Episode*

(Illustration on Picture Page)

Mrs. Linetta Short, who appeared in Judge Baird's court on July 12 last charged with assault with a deadly weapon with intent to kill, yesterday won a divorce from Charles Short in Judge L. Fleming's court.

She told the story of their separation, their reconciliation, then of the full discovery of her husband in the arms of another woman.

She secreted herself in a closet in Short's apartment, 120 Ottawa Street, where she remained until June 26, last, intending to surprise him when he came in.

About 1 o'clock in the morning he entered the room, and with him was Mrs. Effie Lightfoot.

"They started kissing each other," she said. "It made me crazy. I came out and saw a razor lying on the table. I picked it up, then I remembered what happened after that."

Mrs. Lightfoot, however, bears visible evidence of what happened in the several long scowls across her face where the blade sliced her. She swore to the complaint on which Mrs. Short was indicted and admitted at the trial her presence in Short's apartment at 1 o'clock in the morning "on a friendly visit."

Mrs. Short is at liberty on \$2000 bail, pending a further hearing of the criminal charge.

THE TIMES endeavours to ascertain in every published statement of fact. Readers who desire an important accuracy of statement will confer a great service by attention of the Editiorial Department to the error.

OPEN FACED

In Oklahoma members of the Ku Klux Klan dare not go abroad with masked faces. If the purposes of the Klan are just and worthy they ought to be proud to go unmasked and unsummed. It is no hardship for a righteous man to go forth with an open countenance.

LONG DISTANCE

It is proposed to extend the street-numbering system of the city out on the country roads as is being done in Wayne county outside of the city of Detroit. It is fine for the parcel-post service. If this should be tried here, what would be the number of the last house on the San Fernando road?

THE NEXT CONVENTION

It looks as if the next Republican convention would be held in Chicago. This is getting to be continuous. It would be cheaper for the elephant to secure permanent parking space in the metropolis of the Great Lakes. Are the New England delegates afraid to enter the country west of the Mississippi River?

THE DEAD ONES

There have been 270 murders in Chicago this year as against 155 in the same eight months of last year. Life there appears to be worth about \$0 per cent less than last season. It is believed that in proportion to population Chicago holds the world's homicide record for civic bodies. Neither New York nor Los Angeles is nearly as fatal.

PLACING THE BLAME

Lord Birkenhead is inclined to blame America for the ill of Europe. This is circumlocution with a vengeance. He intimates that Uncle Sam made the Versailles Treaty and then ducked—thereby escaping its responsibilities and understandings and leaving the governments of Europe to hold the sack. He rather implies that this was not exactly the sporting thing to do and is not in accord with American practice or temper. It would seem that passing the buck has become an international game and has expanded from our own embroiled past.

IN IRELAND

Irish elections passed off peacefully—not a drop of blood shed anywhere.

Ireland admitted to the League of Nations as a self-governing country in good standing.

Ireland is at this moment probably the safest country in the world for visitors," remarks George Bernard Shaw.

Ireland to float a loan which is expected to be oversubscribed within the United Kingdom, without the necessity for outside offerings.

Republicans and Free Staters are expected to work in harmony in the Dail, record numerous Irish editorials.

Who dares make war when Ireland can agree?

SHOWING A SLUMP?

Some of our oil experts express the belief that peak production has been passed in the principal fields now being extensively worked in this neighborhood and that new wells will not make up the slump in those now flowing. Some of these are showing quite a shrinkage, although numbers of them were cut down and reduced by the owners themselves. What will happen when pumping time comes is a puzzle. Thus far attempts at pumping from below the 3000-foot level have failed. Many of these new wells are over 5000 feet deep and it is feared that they cannot be pumped at a profit. We have been afflicted with an over-production of oil in this district, but it would seem that the situation will present take care of itself unless entirely new wells are brought in.

CHAINED SPEECHES

A unique method of getting people to listen to one's orations and to prevent them from ejecting the speaker was recently discovered in Johannesburg during the course of a debate in the South African Assembly on the question of an appropriation for the relief of unemployment. Two radicals who had much to say on the subject, but were uncertain of the reception that would be accorded to their gems of rhetoric and political economy, chained themselves to the rail of the public gallery. From this point of vantage they delivered their address, secure in the knowledge that they could not be thrown out.

A hurry call for tools was sent out, but it required half an hour to saw the gentlemen loose from their moorings. During this entire period they continued to expound their theories to the enthralled audience. Many of the members wished to prosecute the orators, but Gen. Smuts and the Speaker of the House refused to assent to this. They felt that they were entitled to their liberty from having thought up a distinctly new idea. It has its advantages when one is addressing a hostile audience. But it might prove not so good, were the latter armed with missiles, as political audiences sometimes are. Most politicians will continue to give their preference to stage where the exit marks are plainly visible.

ARE WE DOLLAR MAD?

A probably the most frequent accusation lodged against the American people by nationals of other countries is that we are dollar mad. They allege that we have become fanatical over getting rich, that we sacrifice life, morals and honor to frenzied finance.

Those who have observed the Americans the closest, however, are beginning to note that they are more liberal with the money they have earned than any other people, that they devote a greater proportion of it to humanitarian purposes and, as a result, that they get more out of life as they pass through it than those who make less and spend less.

One notable example of American benevolence is the Red Cross. It has become recognized as a first-aid-to-the-injured agency that covers the whole world. While its contributions come from this country, the greater portion of its funds are expended outside the United States. Wherever a disaster strikes, whether it be caused by the blind forces of nature or by the devastation of war, the Red Cross is the first in the field.

There are other associations that are

quite active in their way, but the membership is less and the funds under their control are more limited.

Through different relief organizations, including Federal appropriations for benevolent purposes, this country expended more than \$20,000,000 during the period from July, 1914, to December, 1922. This record has never been even closely approached by any other people.

In relief for disasters caused by the forces of nature alone the American Red Cross has expended more than \$20,000,000; and it is now raising \$8,000,000 for relief in Japan.

Wherever disaster or pestilence strikes there begins the flow of American dollars. We do not ask the cause of the disaster. We do not decide whether the people have brought it upon their own heads by political blunders or by improper sanitation. It is enough to know that women and children are likely to perish from preventable causes and the American pursestraps are open.

It is true that, from the European point of view, Americans are engaged in a ceaseless chase after the dollar. But, for the far greater part, it is an honest effort to accumulate a competence. The Americans are by nature industrious. They possess a vision, and they know how to make two blades of grass grow where but one grew before. They have great industrial leaders, who take wealth from the earth and the sea, who organize communities for mass production, who give a dollar's worth of service for every 100 cents received.

In Europe one finds communities where the people are content to live as generations have lived before them, who do not consider it worth while to take the trouble to get rich. They lack ambition and lack equally the desire for service. Americans have discovered that it is those who put the most into life that get the most out of it.

But there is a distinction between giving freely and giving unwisely. The American people as a whole have risen against the encroachment of the political spenders. They are willing to work and to aid those who need assistance; but they are not willing to be worked. President Harding set the example of government thrift. His reduction in Federal expenses established a new record; and President Coolidge is following his beloved predecessor's example.

He has set the wheels in motion for a further reduction of the national budget. He insists that the current expense of the government for the fiscal year must not exceed \$1,700,000,000—about \$1,000,000,000 reduction from the Democratic budget.

Thus, while death duties brought Britain a beggarly \$20,000,000 in 1921, this reached the prosperous total of over \$250,000,000 last year. Which the Chancellor of the Exchequer cannot resist regarding as a happy windfall, no matter what the copious condolences that rained in upon the deceased's relatives.

Then there were ninety more who were millionaires, according to our reckoning—over \$250,000—and a couple of hundred with fortunes ranging around \$500,000.

In the case of Sir Ernest Cassel the state received nearly \$15,000,000 in duties.

A play called "His House in Order" was once written around horses, with appallingly faithful portrayals of horses at their boring best. And all the critics acclaimed it as a work of genius, but altogether too dashed realistic. One can readily understand that any such play would not exactly prove sumptuously popular with the "uneducated masses." They can get that sort of thing at home for nothing. Yet the play ran six months in London and two months in New York—so there were evidently enough "truly educated people" to find these horses exciting and entertaining.

At the same time, even those producers claiming to cater to educated people will do well to appreciate that one can have much of a good thing. The "bore" test should be used exclusively as a condiment, not the whole meal. So many of us have not fully graduated yet.

These statistics are interesting as a hint of the vast wealth that still exists in Great Britain. Many of these fortunes were surely accumulated by the rise in value of real estate since the war—and also indicate why many classes are poorer in Britain today. But, under these death and inheritance duties and taxes, so large a proportion reverts to the state that a certain democratic readjustment is continuously working itself out—and it is safe to say that it will be many a long day before such huge fortunes can be accumulated again.

Excess-profit taxes and surtaxes take care of that. In the meantime these wealthy rich could not have elected to die at a more useful time for the government and, no matter what their war record or what the absence of heroism involved, these people have "died for their country."

much of a good thing. The "bore" test

should be used exclusively as a condiment,

not the whole meal. So many of us have

not fully graduated yet.

These statistics are interesting as a hint

of the vast wealth that still exists in Great

Britain. Many of these fortunes were

surely accumulated by the rise in value

of real estate since the war—and also

indicate why many classes are poorer in

Britain today. But, under these death and

inheritance duties and taxes, so large a pro-

portion reverts to the state that a certain

democratic readjustment is continuously

working itself out—and it is safe to say

that it will be many a long day before

such huge fortunes can be accumulated again.

At the same time, even those producers

claiming to cater to educated people will

do well to appreciate that one can have

much of a good thing. The "bore" test

should be used exclusively as a condiment,

not the whole meal. So many of us have

not fully graduated yet.

**SOCIETY**

BY CORA YOUNG

The marriage of Miss Dorothy Burton Chapin, daughter of Mr. and Mrs. Frank Burton Chapin, 10 Jocelyn Davidson of Toronto, Canada, was celebrated Tuesday afternoon in the gardens of the home of the bride's parents at Los Angeles. Dr. Corbett of Santa Monica read the service in the presence of the family and a group of close friends. Mr. Chapin gave his daughter in marriage to Miss May Norgoff of Los Angeles. Leslie Jones of London, England, was best man. After a honeymoon trip through California Mr. and Mrs. Davidson will return to their home in the bride's parents for a short visit before going to Toronto, Can., where they will make their home.

**Returned From Europe**  
Mr. and Mrs. Robert Ladd Gifford with their son Brooks have returned to their home in Pasadena after spending four months traveling in Europe.

**Fred Forrester Weds**  
Fred W. Forrester one of the owners of the Forrester Building, and son of a pioneer Los Angeles family, married Miss Eleanor Moore a charmingly appointed dinner party in Wednesday evening. Miss Moore asked fourteen guests to greet Mrs. Savage.

**Interesting Guest**  
An interesting guest recently arrived at the Hotel Maryland from Honolulu is Miss Bertha Ruth Young. Miss Young came to Pasadena from San Francisco to visit Mr. Conrad C. Von Hamm and Miss Rosalie Von Hamm, who have been guests at the Maryland for several months.

**Going East**  
Mr. and Mrs. H. H. Hawkins, who have been staying at the El Encanto at Santa Barbara, have leased their bungalow at the Hotel Maryland. Mr. and Mrs. Hawkins are leaving Monday evening for San Francisco. After spending a few days there they will go on to Spokane, Wash. Later they will go on to the way of the Canadian Rockies.

**Returned From World Tour**  
Miss Anna Crowell Parsons, who left Pasadena fifteen months ago for a stay in Europe, which was followed by a tour around the world, has returned to Pasadena and is domiciled once more at the Hotel Maryland.

**At Rockwood Inn**  
Mr. and Mrs. Horatio Cogswell and small daughter Kathryn have just returned to their home on South Van Ness avenue after pleasant stay in Santa Barbara at the Rockwood Inn. Mr. and Mrs. Merrill Moore Grigg were also of the party.

**Covered Wagon Party**  
At the Hollywood Country Club this week Patrick Devenish Smith entertained a company of his young friends with a "Covered Wagon" party. There were races and numerous other attractions which prizes were awarded. The highlight of the party was a miniature covered wagon, with favors, place cards and decorations carrying out the motif.

**Announcement Tea**  
The Betrothal of Annie Stockton Howell, widely known young so-

cialite, and Mr. and Mrs. Forrester will return to Los Angeles about November 1 and will make their home temporarily at the residence of the bride's parents at Los Angeles.

News of the marriage came as a distinct surprise to Mr. Forrester's many friends here.

**At Home Again**

Mrs. A. C. Blitska and son Archibald, who motored to Del Monte a month ago, are now at their West Adams-street home.

**Engagement Announced**

The engagement is announced of Miss Dorothy King, daughter of Mr. and Mrs. George King, 1155 Kinney of Berkeley, to Nichols Milbank, Jr., of this city. Miss Kinney is a student at the University of California and a member of the Chi Omega Sorority. The date for the wedding has not been set.

**From Northern Trip**

Mrs. Sloan-Crouet has returned to her apartment on Wilshire Boulevard after three months in the north, one month of which was passed at Del Monte enjoying the summer sports and numerous interesting motor trips.

**Dinner Party**

Complimenting Mrs. Fred K. Savage, wife has recently returned from Honolulu. Miss Eleanor Moore gave a charmingly appointed dinner party in Wednesday evening. Miss Moore asked fourteen guests to greet Mrs. Savage.

**Interestings**

An interesting guest recently arrived at the Hotel Maryland from Honolulu is Miss Bertha Ruth Young. Miss Young came to Pasadena from San Francisco to visit Mr. Conrad C. Von Hamm and Miss Rosalie Von Hamm, who have been guests at the Maryland for several months.

**Winter in East**

Miss Eleanor V. Hofer, daughter of Mr. and Mrs. M. L. Hofer of Westlake avenue, is on her way to New York to spend the winter. She will make short stops in Chicago, Cleveland and Buffalo for visits with friends.

**Summer at Coronado**

Mr. and Mrs. Lester G. Baldwin and sons, Lester, Jr., and Willis, have returned from their summer cottage at Coronado. Much of their time is spent at their bungalow at the Beverly Hills Hotel. They have with them Mrs. Baldwin's sister, Mrs. Wilson M. Lambert, and Mr. Lambert's wife.

**Summer Guests**

Mr. and Mrs. Russell Grimwade are at the Beverly Hills Hotel. They are at Santa Catalina for the week, returning early in the week, and will spend several weeks here before continuing their

**The President's Pet Dish is Mayonnaise, so say the newspapers. The Nation's pet Mayonnaise is**

**GOLD MEDAL Mayonnaise**

so "say" the Sales—from coast to coast. Gold Medal is real home-made Mayonnaise in that it is made fresh daily of new-laid eggs and the finest of oils. It is French in seasoning—the chef's secret that gives the tangy, teasty taste that can't be imitated. Write for a copy of "The Salad Bowl".

**JAPAN'S CREDIT STILL IS HIGH**

Former Trade Commissioner Very Optimistic

Silk Loss at Yokohama Put at \$50,000,000

**Osaka, Industrial Center, Untouched by Quake**

The national credit of Japan has not suffered materially, nor will her exchange be perceptibly affected as the result of the recent earthquake disaster, in the opinion of H. A. Butts, until recently trade commissioner representing the United States Department of Commerce at Tokio, and now a Los Angeles visitor.

"I have noticed statements in the newspapers to the effect that Japan has received a blow from which she will not recover for twenty-five years or more," said Mr. Butts. "This is probably true as far as the rebuilding of Tokio and Yokohama are concerned, but it does not apply to the Japanese nation as a whole. Osaka, which is the industrial center, has not been affected, and this is true also of other manufacturing cities and the silk-producing districts. I venture to say that Japan could float a loan today as readily as before the quake, because there has been practically no depreciation in Japanese bond quotations."

IN POST THREE YEARS

Mr. Butts' function as trade commissioner, which post he held for three years, was to seek avenues for American trade in Japan and to keep in touch with the economic conditions of the country in the interest of Americans engaged in commerce in the Far East. He was succeeded by E. G. Babbitt, formerly manager of the American Consulate and diplomatic counselor at San Francisco, who reached Tokio two days before the earthquake in company with his wife and two daughters, one of whom had been born in the devastated city. Babbitt is now back to rebuild Tokio," Mr. Butts said.

"And this will give rise to a large demand for building material from this country, particularly lumber and structural steel. The city will be rebuilt in accordance with modern plans. Seven-eighths of its area was without sewage facilities before the destruction, and the new city will be equipped in this respect to the same extent as the old city was."

Pauline Starke's Engagement

Speaking of engagements, Pauline Starke is wearing a hand-made engagement ring, the gift of her fiance, Jack White. The ring is a diamond, cut as an emerald is usually cut, with its facets inverted. If you peer into the stone, you can see a sight of steps descending to the depths of a diamond. This idea is the latest in jewelry, this theory being that the stairs lead to the door of matrimony.

Bryant Washburn in *Pulpit*

Bryant Washburn, who is starring in his own productions for Grand-Asher release, last night occupied the pulpit of the First Congregational Church of Glendale, Glendale and Hollywood Boulevard. He spoke on behalf of the Japanese, who have been left destitute following the big disaster in their land.

The meeting was held in conjunction with the bazaar in the church to aid the earthquake sufferers. Washburn proved a silver-tongued pleader for the sufferers, taking at the end of his talk yielded many good American dollars.

## SHE'S THE REASON

HELENE HAS LEAD IN "WHY MEN LEAVE HOME"

By Grace Kingsley

Closely following the selection of Lewis B. Stone to head the all-star cast in his new picture, "Why Men Leave Home," John M. Stahl has chosen Helene Chadwick for the leading feminine role in the picture adapted from Avery Hopwood's play.

Although, in her characterization, she is the reason why men leave home, Miss Chadwick's role is far from being of vampish nature. Instead, she plays the loving wife of Mr. Stone, who responds to his departure from the family fireside by a neglectful lapse that forces him to seek company elsewhere.

Irving Thalberg, vice-president and production head at the Mayer studio, obtained Miss Chadwick for "Why Men Leave Home" through a special arrangement with the Goldwyn Studio, where it is understood she will appear under Rupert Hughes's direction, she has just completed a star role in "Law Against Law."

Wanda V. Mong is another popular star who has been cast for an important part in this coming Louis B. Mayer offering. Upon the completion of his part in the Stahl picture, he will join the Fred Niblo production, which is under way under the direction of Edward H. Griffith.

Dorothy Phillips was formerly engaged to play the title character in "Why Men Leave Home" but it is rumored now that she will possibly assume the coveted feminine role in "They Name Is Woman," Mary Carr has likewise been engaged for the film.

Dorothy Phillips was formerly engaged to play the title character in "Why Men Leave Home" but it is rumored now that she will possibly assume the coveted feminine role in "They Name Is Woman," Mary Carr has likewise been engaged for the film.

This brilliant trio will sing the leading parts in Verdi's "Aida," which will be heard at the Bowl this Saturday and Sunday nights.

This production with a chorus of 800 will rival in splendor the original performance presented by Verdi in Cairo for the pleasure of the Khedive of Egypt.

Miss Ruthberg has a clear warm soprano, which floats above the Italian orchestra with unison.

For the first time ever before in the West, but was brought over a season ago by the Metropolitan for parts such as Tosca and Aida. Kingston, the leading Metropolitan tenor, is a well-known artist in dramatic singing quality of his people.

The business of the Bowl should provide an admirable background for his vocal powers and gorgeous hair.

Verdi's "Aida" will be given at the Bowl this Saturday and Sunday nights.

This production with a chorus of 800 will rival in splendor the original performance presented by Verdi in Cairo for the pleasure of the Khedive of Egypt.

Curiously enough "Aida" will give Californians an opportunity to hear a native singer who has just been signed up by the Metropolitan. Lawrence Tibbett will sing Amneris. Viola Ellis will be heard as Amonas.

Sixty-five of the 100 boxes have already sold out, and the remaining performances as well as the admission prices range from mere dimes to dollars each the out-of-doors seem small enough for this unwanted production.

Performers of elephants, camels and Arabian horses will mingle with the brightly-clad eastern

audience to give the opera all the splendor of a spectacle.

The production of "Aida" is made possible in Los Angeles largely through the generosity of Mrs. A. B. Maescher as a tribute to Southern California. Eugene Evans, producer, is the general manager and the impresario; Alexander Bevan is the general director of this production. A chorus of 800 voices is being rehearsed under the direction of Claire Forbes Crane.

## OPERA SINGERS ASSEMBLING

Viola Ellis

Policy Is Set  
for Two-a-Day  
at California

A new policy of presentation will be started at the California Theater next Friday, according to announcement by Fred Miller.

For a long time Mr. Miller has felt that the producers of really big pictures were not getting proper co-operation from the high-class theaters and exhibitors of the country because of the fact that a continuous show prevented about 50 per cent of the audiences from seeing the pictures at the start, thereby destroying the climax and making the spending of a million or more, to a large extent, a waste. Also this continuous policy made it necessary for many people to stand in line sometimes for over twice as long as they succeeded in getting a seat when they were worn out, mad, and in no mood to enjoy it much, if at all.

Consequently with the showing away their telescopes and getting out their opera glasses.

Three stars of unusual magnitude are due in Los Angeles Monday night. They are Elizabeth Ruthberg, Lawrence Tibbett and Louis D'Angelo. They were all seen last night in New York by Metropolitan audiences.

This brilliant trio will sing the leading parts in Verdi's "Aida," which will be heard at the Bowl this Saturday and Sunday nights.

This production with a chorus of 800 will rival in splendor the original performance presented by Verdi in Cairo for the pleasure of the Khedive of Egypt.

Curiously enough "Aida" will give Californians an opportunity to hear a native singer who has just been signed up by the Metropolitan. Lawrence Tibbett will sing Amneris. Viola Ellis will be heard as Amonas.

Sixty-five of the 100 boxes have already sold out, and the remaining performances as well as the admission prices range from mere dimes to dollars each the out-of-doors seem small enough for this unwanted production.

Performers of elephants, camels and Arabian horses will mingle with the brightly-clad eastern

audience to give the opera all the splendor of a spectacle.

The production of "Aida" is made possible in Los Angeles largely through the generosity of Mrs. A. B. Maescher as a tribute to Southern California. Eugene Evans, producer, is the general manager and the impresario; Alexander Bevan is the general director of this production. A chorus of 800 voices is being rehearsed under the direction of Claire Forbes Crane.

Starting tomorrow there will be seen the screen version of "The Broken Wing" at the Moran Theater.

Mr. Grey spent two years in the Tonopah Basin, Arizona, securing material for this book from the natives who still tell with awe of the Pleasant Valley war, a feud which was waged by the cattlemen in which both factions were wiped out literally to the last man. Mr. Grey incorporated this feud in his story and Paramount has selected for the leading roles Michael, Dickie, Lois Wilson, Frank Campbell, Wallace Beery and Robert Edeson, among others.

The meeting was held in conjunction with the bazaar in the church to aid the earthquake sufferers. Washburn proved a silver-tongued pleader for the sufferers, taking at the end of his talk yielded many good American dollars.

Following "The Broken Wing," which has been one of the biggest successes the Moran has presented this season, will come David Belasco's "The Gold Diggers," which kept New York laughing for two years.

"The Broken Wing" will be seen at the Moran Theater, which is the most popular of D. W. Griffith's "The White Rose," one of the big pictures of the year, which is being shown at an elaborate program of musicals and comedies.

It is believed that the popularity of "The White Rose" has been the attendance that it is necessary to continue the picture for a third week.

The "Courtship" of Miles Standish will be the attraction to follow "The White Rose" and Mr. Grauman is now negotiating for only large productions.

"GOLD-DIGGERS" IS  
NEXT ON PROGRAM

This is the next to the last week that the troupe from the studio lot these days. He has deserted the klieg lights and the cameras, however, of course, quizzing with members of the Ringling Brothers circus, with which organization he was at one time connected as a featured rider and roper. The June 12 "Buck" is due to cause "Buck" to suffer "itchy feet." Jones and his talented young wife were at one time headliners with the Miller troupe, and when the Miller troupe gained considerable fame since those days they are considered a top-notch drawing card for any circus and as a result, it is said, are constantly sought after by outdoor showmen.

## STATE DOUBLES ITS OIL OUTPUT

Petroleum Geologists to Meet Here This Month

Will Inspect Great Producing Fields of South

Companies to be Represented at Gatherings

The fact that this State will produce an estimated 265,000,000 barrels of petroleum during the year, which comes close to doubling the production of 1922, more than justified the attention being given to California oil fields by the oil industry at large, the opinion of State Mineralogist Root.

From the 26th to 23rd inst. inclusive, the American Association of Petroleum Geologists will hold its annual meeting here. Members who come from all parts of the United States, as well as foreign countries, will have the opportunity to get a close view of the results of recent development in California oil fields, which are now producing nearly 40 per cent of the petroleum of the United States.

California petroleum geologists and engineers have taken a very active part in the State's oil-field development and they welcome the opportunity to be hosts to the members of the American Association of Petroleum Geologists. California oil company executives are arranging to have their respective concerns fully represented at the meeting.

### OPEN TO OTHERS

In order that the oil industry as well as the lay public, which has definite interest in the State's petroleum resources, may derive the greatest benefit from the geologists' sessions, Max Ball of Denver, president of the association, has stated that the meetings will not be limited to members only but will be open to nonmembers interested in the geology and technology of oil field development.

Papers to be presented at the meeting include discussions of the general geology of California, production and oil reserves, the petroleum geology of the San Joaquin Valley and the Los Angeles basin and Ventura county. Detailed papers will also be presented covering the geology of Santa Fe Springs oil field, Long Beach, Huntington Beach and Torrance.

In addition certain geologists familiar with their territory, will present papers on Alaskan petroleum and petroleum possibilities of certain areas in Oregon, Montana and elsewhere.

### TO INSPECT FIELDS

A meeting in Southern California by the petroleum geologists representing, either as consultants or by direct employment, practically all the principal interests of the American petroleum industry offers an opportunity to round out the scientific discussions of the meeting by contact with highly practical examples of oil field development through easily visited oil fields, to the oil fields of the Los Angeles basin, Ventura county and the San Joaquin Valley.

The production of the three big fields in the Santa Fe Springs area has increased the other 95 per cent of the proved and producing oil and gas acreage of the State, amounting to 112,000 acres. However, after the visitors' geologists and油井钻机 have passed at the congestion of derricks at Huntington Beach, Long Beach and Santa Fe Springs, which have increased California's production from 1,000,000 to 875,000 barrels daily within the twelve months past, they will be given an opportunity to inspect the fields which hitherto supported the California petroleum industry.

## BEACH CITY POLICE HEAD IS CLEARED

Redondo Officer Freed of Charge of Using Influence on Justice in Liquor Cases

J. W. Henry, Chief of Police of Redondo Beach and constable of Redondo Township, was exonerated by the Civil Service Commission yesterday after an inquiry into charges brought against him by Leo Gregg, former attorney of the District Attorney's office. Gregg asserted that Henry had sought to influence Justice John Monroe Ingleswood in behalf of men held on liquor charges.

Gregg, who also is known as James Carney, was dismissed as the District Attorney's office for alleged corruption of bootleggers, according to the evidence. In bringing his charges against Henry, Gregg refused to testify, other than to present letters written by Henry to City Manager Monroe of Ingleswood, asking him to exert his influence in behalf of Victor Bentz and James Ferguson, held on liquor charges. Henry did not deny authorship of the letters.

Mayor Carl of Redondo Beach during the hearing said Henry had enforced the law in Redondo Beach to the satisfaction of all if the county saw fit to dismiss him as constable, the city of Redondo Beach would appoint him.

The commission in its decision commended Henry's record as an officer, but deplored his activity in seeking to shield an offender from full penalty of the law, and dismissed the charges.

### TROLLEY-AUTO CRASH DAMAGES ARE DENIED

A jury in Judge Hardy's court yesterday declined to award any part of requested damages of \$40,700 to D. R. Barrington, who sued the Pacific Electric Railroad for that amount. The jury's action was largely predicated upon the testimony of R. Rebarber, motorman, who declared that he had examined the gasoline tank of Barrington's automobile, tank immediately after the car had been struck by a Pacific Electric trolley, and had found it empty. The machine stalled on the track in the path of the advancing train, and in the consequent crash, Barrington was injured.

## ASSET IN SMILE WORTH KEEPING

Pastor Tells Radioland of Value Jury Set

Declares Christ Himself Preached Happiness

It's Easier to Grin, Anyhow, Says Dr. Lutman

Dr. Thomas Lutman, pastor of Mesa Congregational Church, spoke from KJZ and asked Radioland a question last night. The query was: "Do the Corners of Your Mouth Turn Up?" He then proceeded in eloquent words to answer "the problem of smiling." Following are excerpts from his talk:

"A few years ago Jimmie Godfrey climbed a tree in Kansas City. Jimmie was having a good time; when suddenly the air was rent by a piercing scream. Jimmie had come into contact with an electric wire. The voltage shocked Jimmie. One side of his face was disfigured with an ugly scar. The case went into court. Jimmie was asked to smile. But the boy could not do so. He had been permanently paralyzed. The only result was a painful and melancholy puckering of the lips. The damage suit by Jimmie against the power company was won. In all cases of palsy the boy left the room and returned almost immediately, awarding the boy damages of \$20,000."

**LOSS CATASTROPHE**

The point is that a fury found that when Jimmie lost the ability to smile he suffered a loss as truly as though he had lost an eye. And this made his smile as an asset worth \$20,000.

"But how many Jimmie Godfrys have grown up with their smile all gone? And if your smile must go, you lose it. It must be worth not less than \$20,000."

"Moreover we are told that it takes sixty-five muscles to work up a smile, and only sixteen to frown. Yet we mayfolk every day who take the trouble to gear up the sixty-five when they only need the thirteen."

"The wisest man that ever lived said, 'Smile, and the world smiles with you.' And it is significant that the first word used by the Optimist of Calvary in His Sermon on the Mount was not as commonly transcribed as 'smile,' but 'Happy.' He knew that life's problem was related to the problem of happiness."

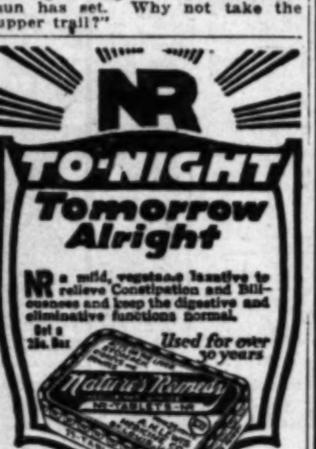

"God has set this world to the key of gladness. Even the fish leap in the waters and the cattle sport on the hills, and the birds sing in the air, and the Great Artist who paints hope in the morning sky and weaves heaven into man's story, intended to paint a smile on the face of every man and make his life musical with cheer."

"Why cultivate the shadows when you can choose the light? It's joy that is the dynamo by which sorrow is borne without breaking. And I know no better creed than this: That life's good when you're ready to become better and it's better best."

"It may be that your smile machinery is just impaired, not ruined. Too bad to let a \$20,000 asset go ruined! Better put that smile to work."

"And if you've come to a hard stretch, remember that the hard things come to pass. Some stay a day, some weeks, some months. But they're not permanent. They're the迢迢路, not the terminus. And beyond them happiness always waits. Why not play the greatest game? For it's the sun shining and the smile you wear that makes the sunshine everywhere. Nature keeps her books perfectly. She erases every item. She adjusts every account at the end of every down there is an up. For every loss there is a gain. The pathway that opens in darkness may always come on in joy. Joy is knowing you're doing well, failing to hang up his hat and fail the house of life with laughter."

"What is your smile worth? Do you cultivate the mouth turn up? Who does? Life is a joy. Are you going to stay in the swampland and be choked by the fog? Or are you going to climb the hills where the sun is shining, where the flowers are growing, where the birds sing, even when the sun has set? Why not take the upper trail?"

## J. W. Robinson Co.—Seventh and Grand—

### Sweaters

\$8.75

TAILORED well in every detail of pockets and buttoned front. And in either soft camel's hair or mohair yarn, in the desired shades of camel, buff, white, brown, orange, peach or red.

All sizes from 34 to 42 may be had.

At the very low pricing of \$8.75.

THIRD FLOOR

### Frocks for Street and Afternoon

THE DISTINCTIVE TYPE OF FROCK WHICH THIS GROUP OF NEW MODELS IS FEATURING, DEPARTS FAR FROM THE USUAL—IN STYLE AS WELL AS IN PRICING.

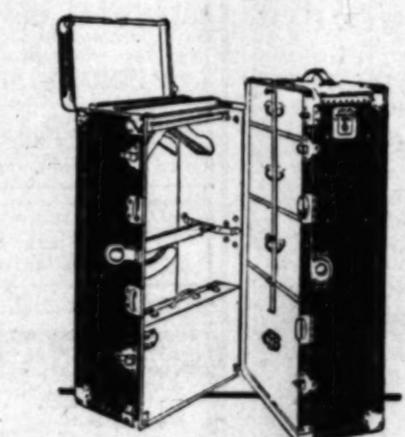

EACH FROCK POSSESSES A MARKED INDIVIDUALITY, ALL THAT THEY HAVE IN COMMON BEING THEIR OBVIOUS AGREEMENT TO ADOPT ALL THAT IS BEST IN THE MODES OF THE MOMENT.

All are of silk—crepe-satin, moire or chenille cloth—fashioned on long lines, looped and draped at back or side, and finished charmingly in every smallest detail. Flounces for some, pleats for others and skillfully done head trimming for more than a few of them.

Frocks may be had in navy, black and brown.

At two prices—\$55.00 and \$57.50.

THIRD FLOOR

### Robinson's Special Wardrobe Trunks

\$39.50

STRONG, WELL-BUILT, CONVENIENT—AND OF DISTINCTIVE APPEARANCE. A TRUNK SUCH AS ONE SELDOM FINDS AT SO LOW A PRICING.

With four large-sized drawers, a removable shoe box, a cushion top and steel angles, to prevent warping.

Lined with a two-toned fabric, complete with 10 hangers, and priced at only \$39.50.

FIRST FLOOR

### Attractive Wool for Fall Wear

IF IT IS A LIGHT WOOLEN FOR AUTUMN WEARING THAT ONE HAS SET AS THE GOAL FOR THE PRE-AUTUMN SHOPPING TOUR, THE WOOLEN SECTION AT ROBINSON'S IS THE HAPPIEST OF HUNTING GROUNDS.

AND AT PRICES THAT ARE FAR BELOW WHAT THE SOFT, UNUSUALLY TEXTURED AND PATTERNED FABRICS COULD RIGHTFULLY EXACT.

The twills in rich dark shades, striped colorfully and narrowly on grounds of navy, black or brown. These at \$4.75 a yard.

Another striped wool is the Crepe Eponge, dark also in its ground color, but threaded with distinct yet quiet tones that lend individuality to this fabric of slightly roughened surface. In brown, gray, black or navy. A fabric that is decidedly practical, at \$4.00 a yard.

And the Kasha Twill, so velvety soft, smooth and closely woven with stripes also, in groups of five narrow lines, the same colors on different grounds of royal blue, navy, taupe, fawn. This is priced at \$6.00 a yard.

SECOND FLOOR

### LINENS

I RISE Linen Damask of the quality which those who are only the finer linens will find decidedly to their liking.

Of smooth anti-shine, ask finish and in more distinctive designs.

In 70-inch width, Priced at \$2.35 a yard.

### NAPKINS

D INNER NAPKINS of firmly woven heavy satin damask are obtainable at a price that makes of them an unusual value.

The stripe, chrysanthemum spot patterns. And in sets of six—each priced at \$3.95.

SECOND FLOOR

### Wool Skirts For Fall

M ANY of them are plaid, since plaiding lends gracefulness and tailoring. Many are straight, slender models of wrap-around style. While combining plainness and plaid and fine vertical braid contribute their effect to others of these skirts.

The imported fabrics—hemp, cotton and many novel materials—and many interesting wool fabrics, rep and faille, and fabrics of domestic manufacture provide a wide choice. Green, beige, tan, and yellow, textures, checks and plaid, popular shades, up to the selection.

The prices are as low as \$1.50.

THIRD FLOOR

### Crepe de Chine Petticoats at \$7.75

WOMEN both silkier quality of crepe de chine and the ordinary quality for lasting wear should find the combination in petticoats.

Shadow-proof, are made double hip. And in white, navy, gray and tan. Priced at \$7.75 per yard.
